# Introduction

## { Do Not Skip }

*I know most of us SKIP introductions in books  
However, this introduction is very important!*

### 1ST THINGS 1ST.

I am sure the main thing that you're wondering is, "How exactly does this ebook work?" It's pretty simple actually. I've divided it into different sections for ease of reading and you can easily jump to each section by clicking on the section links after this introduction. Be sure to read the paragraph before each section for a full explanation of how to get freebies.

**Again, it's imperative that you read the instructions before trying to get any of the freebies I link to or mention.**

### NEXT,

The next question you might be thinking is, "But don't some freebies expire?" Yup. They sure do. Some freebies expire faster than others. For this reason, there are some free samples that I call, "1 form easy free samples". These are free samples that you get free in the mail or at the store and they are easy to get, and everyone will be able to get them.

Who's excited?

To get them all you have to do is fill out an easy form with your name and address. In general, these types of free samples expire faster than others. In fact, some are only active for a day ( or less ). However, for the simplicity in this book, I have included only, "1 form easy free samples " that have not expired in over 3 months.

If you want to see freebies as soon as they go live, be sure to visit my blog daily and see what's new: [www.FreebieLady.com](http://www.FreebieLady.com). Even though I am only including freebies that have longevity some still may expire. What can I say other than sorry about that! I do try to stay on top of it all but things do happen. But, here's the good news! I will be offering "new editions" of this ebook often. These will include new and updated information about freebies.

To make sure you have access to the latest edition, you need to DO THIS.

This ebook isn't going to include JUST these " 1 form easy free samples" though! It's going to include thousands of other kinds of freebies too. Freebies that include product testing, freebies for your birthday, and more. Be certain to check out the section titles after the introduction. (Think of this as the Bible for getting stuff for free!)

Throughout the years I have gotten vacations for free, countless dinners for free, ungodly amounts of free gift cards, thousands upon thousands of free samples, and the list goes on and on. In fact, I don't even remember the last time I paid a dime for Christmas.

Even better, my kids and kids I don't even know are all drowning in gifts because of it (more on that later). Since I am able to get mountains of stuff for free, I've even been given the nickname, "The Freebie Lady" both online and in real life.

My guess is that before you're done with this book, your friends and family will also be calling you the freebie lady/man or freebie mommy/daddy! Maybe even the freebie Granny?!

# Introduction

I am sure you are wondering how the heck I came across all these freebies? And how I became an expert at getting it all? What's crazier folks is that it's actually pretty easy!

My love for getting things for free started back when I was a college student. I was offered to taste test some cookies. In exchange for the taste test, I was able to keep the boxes of cookies for free! I was hooked. However, my love for getting stuff for free really got intense when I had my 1st son (George). Once I became a mom I knew I wanted to stay home with him & I knew in order to do that I had to squeeze every penny I could! Getting free stuff really helped to stretch the dollar. It basically took years of trial and error, creativity, and determination to learn all of this.

Using everything I have learned through the years I have been able to get Christmas for free, donate thousands of dollars worth of items for free, get free vacations, free gift cards, and more! And I can't wait to share my tips with all of you.

# Lets Get Started!

FREEBIES HERE WE COME!

*1st Off I highly recommend that you have an auto form filler on your computer. This will help save you the time it takes you to fill out all the forms listed in this book.*

What an auto-form filler does is that it automatically fills in your information into any online form. It will input your name and address into a free sample form so you don't have to do it every single time. If you use Google Chrome you change the information in your form auto filler under settings.

There are other trusted ones you can download and install like <https://www.roboform.com/form-filler>

Next, I recommend setting up a separate email that you use just for signing up for freebies because, with some of the sign-ups, you may get a lot of emails. This will help you keep your everyday e-mail box from being flooded. I, personally, even go as far as to using a fake number when signing up for freebies. What I don't want is this ebook filled with "fluff " and filler words. So, let's get right to sharing all my tips and tricks!

## *Before You Start*

- 1** Grab yourself an "Auto Filler. " This will make filling out form so much easier.
- 2** Set another Email at a FREE Email service like Google.
- 3** SGet a FREE Phone number with Google Voice [[HERE](#)]. Use this number instead of your own. OR Make up one.

# 387 Free Coupons & Possible Free Samples

*To start off this insane list of freebies we have to begin with 387 companies that will send you FREE Coupons..*

This is probably the largest list of free coupons you will find anywhere online. No more waiting for the Sunday paper with this list! I am sure you are asking yourself... "How does this work?" Well, let me tell you! All you have to do is click on each company name listed below and then message them. Be sure to tell them how much you LOVE their product, and how you would like to tell your friends about them. Then, ask them if they could send you some coupons. I PROMISE YOU if you contact each of these companies your mailbox will be flooded with coupons. Some may even send you free samples – but not all. I personally have used this list and I was AMAZED at the number of free coupons I got. Most of the coupons I received were high-value coupons, with expiration dates way into the future AND they sent multiple coupons.

**Enjoy! Let's Have Some FUN!**

# Free Stuff From Amazon from “ Direct Ship “ / “ Unicorn Gifts”.

When / If you start getting freebies in the mail PLEASE **SHARE Your Pictures [ [HERE](#) ]!** \*\*

Direct Shipment is all the rage in the internet freebie world. The idea is that online sellers have a surplus of inventory and it costs the seller money to let it sit in warehouses. For overseas sellers, it may cost them a TON to have a warehouse that holds their inventory ship the surplus inventory back to them. *That's where you come in!* The sellers are looking for people to unload some of their surplus inventory – TOTALLY FREE! This person could be you! I have seen MANY people get a ton of free stuff with Direct Shipment. You will not order it. **You don't need to leave a review.** Someday something may just show up at your doorstep. \*\* If you discover a problem with any person or application please let me know.

**Here are some things to keep in mind when going through this list of direct shippers.**

Sometimes shippers run out of stuff to ship. This happens. Because of this, you may get an influx of freebies and then they will suddenly stop getting packages.

Also, it's important to keep in mind that you will not get something from everyone on this list simply because some of the sellers may not have any overstock at the time you are filling out the form.

Moreover, people who are in “tax-free” states tend to get more direct ship items because it saves the sellers more money. However, just because you don’t live in a “tax-free state” doesn’t mean you won’t get anything! Personally, I DO NOT live in a “tax-free” state and still get direct ship freebies.

Another thing to keep in mind is that these are NOT “free after review”. You do not have to leave a review or purchase anything (in hopes to be reimbursed later). So, if you get any replies asking you to review their items in exchange for free stuff I would kindly say, “no thanks”. More on getting stuff for free in exchange for a review later.

And, lastly, be patient. It took me almost 6 months to get my first direct ship freebie. Others may get them in a matter of weeks. It’s all luck. So don’t think you’re doing anything wrong or that it’s all fake!

## Organization – Yes, I get it... there are a lot of direct shippers on this list!

### Words for Warning:

- I have not done direct shipment myself so I CAN NOT guarantee you will get anything.
- I CAN NOT verify the legitimacy of any Direct Shipment applications I post or the people to contact. **Sign up totally at your risk.**
- Be cautious about sending your personal information to ANYONE online. **Sign up totally at your risk.**
- NEVER. EVER. EVER. Send anyone money, credit card information, or passwords! EVER. **Sign up totally at your risk.**

Think about what fun it is going to be to fill out all these forms and then on your birthday (or near your birthday) you are flooded with freebies?! From cakes to a steak dinner, and tons of surprise gifts! Even better, it'll happen every year. At least this way at least someone will remember your birthday!

This list is, again, one of the largest birthday freebies lists anywhere out there. It took me forever to compile and, yes, I have signed up for everything. One thing I do recommend is creating a separate email for all these signs ups. I also recommend getting that form filler ready because you are going to need it. Enjoy. I must say this is one of my favorite lists.

Feel free to indulge yourself with as many of these freebies as you possibly can. It's your special day you don't want to hold back. But remember, some of these freebies require you to sign up with them a few weeks or days before your birthday. *Don't you just LOVE birthday Freebies and Free Stuff on your birthday?*

# LEGITIMATE survey sites

Joining survey sites to make money on the side has gotten a bad reputation over the years. This is mainly because the internet is FILLED with FAKE Survey sites and even worst, FAKE survey site lists. It has been my goal to make a list of LEGITIMATE survey sites that you can actually make money on. What I DO NOT recommend you do is go to Google and start searching for survey sites! You will get bogged down with scams and spam. Seriously, DO NOT DO IT!

**There are two types of survey sites out there.**

The two different types are called, “*Get Paid To Do Sites*” and “*Market Research Sites*”.

Let’s take a minute to understand the difference between the two.

**Get Paid To Do Sites:** These are sites that are going to ask you to do something in exchange for Free Gift Cards or Payment. These will be tasks like reading emails, watching videos, or doing some short surveys. These often get confused with SCAM sites and YES, there is a lot of SCAM “Get Paid To Do Sites” out there). You will earn smaller amounts of money with these kinds of survey sites. Over the course of 6 months to a year, they can really add up! In fact, I use many of these sites daily & then wait for Christmas to cash them in.

**Market Research Companies:** These survey opportunities often pay A LOT! I am talking \$100 to sometimes upwards of \$500 a survey! Large companies conduct these studies about anything from your eating habits to how to use technology. When the payout is higher they can be harder to qualify for, so you will want to apply to more than one of the “Get Paid To Do Sites”. I have met plenty of people who apply to 10 or 20 a day and make a GREAT Side Hustle money doing them!

# Survey Sites I recommend You DO NOT Sign up for...

Here are the lowest ranking survey sites and ones that I recommend you RUN away from!

- [Life Points - https://www.lifepointspanel.com/](https://www.lifepointspanel.com/)
- [Mind Sumo - https://www.mindsumo.com/challenges/all](https://www.mindsumo.com/challenges/all)
- [My Opinion - https://www.myopinionnow.com/](https://www.myopinionnow.com/)

Now here are 4 places to go to verify if the survey site you want to join is legit or not are :

- [The Better Business Bureau = https://www.bbb.org/](https://www.bbb.org/)
- [Survey Police – surveypolice.com](http://surveypolice.com)
- [Beer Money Sub-Reddit Forum – https://www.reddit.com/r/beermoney/](https://www.reddit.com/r/beermoney/)
- [Trustpilot – https://www.trustpilot.com/](https://www.trustpilot.com/)

## Not sure if you can trust a survey site? Here are things to keep in mind...

#1. Check them out on the Better Business Bureau ( BBB ).

The BBB gives companies a letter rating with A+ being the best and, of course, F being the worse. You can also read what others have to say about the company. BBB takes complaints and ratings seriously. They investigate all companies and rate them accordingly. The BBB is a wealth of information. Again, The webpage address is :

## **#2. Check the longevity of the business.**

Many times companies who start to get a bad reputation change the name of their webpage and “start fresh”. If the webpage is new be VERY skeptical. There are SO many reputable survey sites out there that there is NO reason to sign up for ones that may be “iffy”.

## **#3. Check out the minimum amount needed to “cash-out”.**

If the minimum is \$100 or \$200 to cash out it could be that they want to make it as hard as possible for you to get enough money to ever be able to cash out. Reputable “Get Paid To Do” survey sites have a minimum “cash-out” of \$1.00 to \$20.00. Sites with really high cash out I would RUN from – and I mean AS FAST AS YOU CAN!

Here is My List Of Legitimate Survey Sites. I have used almost all of them. Enjoy!

## ” Get Paid To Do Sites”

- [Swagbucks \[ GO HERE \] To Sign up](#). This is my favorite one. I have using it forever. They have been around for forever. Highly trusted and recommended.
- [My Points \[ GO HERE \] To Sign up](#). Owned by the same company that owns Swagbucks. It’s been around for a really long time.
- [Pine Cone Research \[ GO HERE \] To Sign up](#). They pay \$3.00 per-survey if the survey takes 5 minutes or a hour. It does not matter. They still pay \$3.00. This one is hard to get into. They are currently accepting new applications, but that could change at any moment. When they have openings for your specific demographic they will e-mail you.
- [Qmee \[ GO HERE \] To Sign up](#) . All you must do to earn money with them is go use them as a search Engine!
- [Fetch Rewards \[ GO HERE \] To Sign up](#). ENTER Referral Code: U8EWC { YOU MUST DO THIS STEP! } when you download it and you will automatically make \$3.00 !
- [InstaGC \[ GO HERE \] To Sign up](#). Every week you get ” bonus points ” for doing basically nothing but logging in. They you can also make more money by doing easy things like surveys and watching videos. The best part is that the cash out is only \$1.00!
- [Inbox Dollars](#) – They have come a long way in the last 10 years. A few years ago I would tell you not to bother, but now they are pretty good! Plus, you get a \$5.00 bonus just for signing up. [\[ CLICK HERE \] to Join](#).
- [Branded Surveys](#) – Opportunity upon opportunity to make real money with Branded. I am getting TONS of survey offers a day from them. The more you do, the more money you make with each. You get points and turn those points in for cash or gift cards. Great over-all legit site. [\[ CLICK HERE \] to Join](#).
- [Vindale Research](#) – Join Vindale Research and earn up to \$50 per online survey completed. Cash out with PayPal! [\[ CLICK HERE \] to Join!](#)

# 14 FREE Sample Boxes.

I must say I love getting sample boxes in the mail because it usually means a ton of freebies all at once. Each box usually contains between 2 to 10 samples! Even better, I love them because they are so easy to get. **The way it works is you simply sign up.** Sometimes you have to answer a few questions about yourself so that you can be matched with samples that you are more likely to use and like. However, you will not have to do pages and pages of surveys or questions.

Also, many of these boxes are released periodically. For example, “PinchMe “ boxes are released once a month and Sample Source boxes are released 4 times a year. I recommend you go through and sign up for all of them. When their release dates come up you will get an email letting you know. You may have to re-apply for specific items within the boxes when they are released so when you get an email about the release date make sure to log into your account on that release date to follow up and stay on top of it all.

*( List will be on the next page. Love you all. Enjoy. )*

# Free Diapers!

Diapers are one of the most costly things of having a baby in the first few years (next to formula). However, the good news is that a lot of the diaper companies want you to try their diapers, fall in love with them, and then buy their diapers – and only their diapers. Therefore, they are more than happy to send you free baby diapers to try. I've listed some of these companies above, however, there are even more companies that will send you discounts, and free diapers!

I will also note that if the cost of diapers is outside your current household budget there are usually local agencies that can help. Samples and freebies are great but they won't cover your child's entire diaper needs.

# 108 Legit Product Testing Companies!

---

Product testing is probably my favorite way to get freebies! This is because you can get really high-value items for VERY little effort. I have gotten everything from a stroller, car seats, a crib, a pot & pan set, carpet cleaners, and more with product testing. It's amazing and I can't wait to see what fun you have with it as well!

Like a lot of the other freebies, we already talked about the only "problem" with doing product testing is that the industry is riddled with fake companies trying to look real in order to scam you. That is why I made this list of "Legit Product Testing Companies". It can be your go-to place to find REAL, trusted companies.

**The companies on this list are 100% legit and safe for you to sign up with.**

**How does product testing work?** The process is actually very simple. Once you qualify for a few items, test them and do a great job reviewing them then your opportunity for more testing products will keep expanding.

I recommended picking 3-5 companies to start off with. Trying to sign up for all 108 will make things way too confusing for you. Make an excel sheet of the companies you have signed up with and what items you have applied to test out. Keep in mind that you won't qualify for all of the items you sign up to test.

Once you start getting selected to test and review items marked on your sheet keep track of them all so you don't get confused. Then, mark them off when you have finished and submitted the review of the items. Doing this will save you so much time and confusion when different items start coming in from different companies! You will start to forget where each item came from if you don't have a system in place to stay organized.

If you start to feel frustrated that you're not qualified for as many items as you would like, be patient and keep applying. Some companies, like Sealy Mattresses, only send out test products once a year. Also, apply for stuff that you will actually use.

For example, if you don't have babies or grandkids try not to waste your time with product testing for those items.

# 101 Ways To Get Free Gift Cards!

**WOWZA!** This is the biggest list of ways to get free gift cards anywhere online. When creating this list it was important to me that this list was trustworthy, legit, and easy to follow. I think (tell me if I am wrong) that I have accomplished exactly what I set out to do.

I use many of these daily. I don't cash any of them in until right around Christmas or if I find a great deal before Christmas. This makes Christmas completely stress free and totally FUN! Also, it gives me the opportunity to donate thousands of dollars worth of toys to kids each year. Imagine going through all of December and not having to worry about Christmas money! Or how you are going to pay for presents this year.

To make things as easy as possible for you I divided this up into sections. Each way to get a free gift card is explained in as much detail as possible in order for you to understand how to get them. Also, all of these 101 Easy Ways to Get Free Gift Cards have been verified as legit and real. In fact, almost all of them I have actually done.

**If I haven't personally used it/done it then I have done my research to make sure it's REAL.**

In order to take full advantage of this list and get the most out of you really need to be organized and have a plan. Here are some tips to help you get the freest gift cards possible out of this huge list.

1. **Don't spread yourself too thin** - Don't try and do the entire list in one day and think you'll be able to do it. Take the list one section at a time. Maybe do 5-6 a day. What you will end up finding out is that you will LOVE some sites, and not like others. For example, I LOVE Swagbucks. However, you might find you LOVE entering contests instead! It's all personal preference.

2. **Do not pay a membership fee! Or any other fee for anything!** - Everything posted in this huge list is completely free! If anyone asks you to pay for anything to get something for free, then it's NOT free! If that is happening to you then you may have clicked on an ad on a webpage...or a popup.

3. **Know what information to give and what not to give!** - You will find a lot of survey sites will ask you for information about yourself. This is because they want to match your demographic information with the correct surveys, emails, videos...However, they do NOT need to know your social security number, phone number, etc. Be aware of the information they REALLY need and what they don't!

4. **Make an email address solely for the purpose of using these sites** - I did mention this in the introduction, however, I think it needs to be said again. Some of the webpages on my list are going to sell your email. What does that mean for you? It means that you are going to be getting a lot of emails. Because of this I highly recommend that you set up a new email address just for getting free gift cards.

**( You will find the list of 101 Free Gift Cards on the next page. enjoy )**

What you will end up finding out is that you will LOVE some sites , and not like others. For example, I LOVE Swagbucks. However, you might find you LOVE entering contests instead! It's all personal preference.

#### **2. Do not pay a membership fee! Or Any other Fee for anything!**

# FAKE Free Samples LIST

## *[ AND How to Spot a Fake! ]*

---

Unfortunately, fake freebies are rampant all over the internet. They are used as a ploy to get you to fill out a form(s) with your personal information. Then your information is often sold to advertisers or worst scammers. Often it can be really hard to tell if the freebies you find are real or fake.

Here I am going to show you some ways to tell if the freebies you find online are real or not. HOWEVER, keep in mind, that everything in this ebook is completely real!

### **#1. When a free sample is not FREE !**

It's called a free sample for a reason. You get it absolutely free. But if a store or website wants you to pay for it, no matter how they spin it, it is probably fake.

For instance, a website may ask you to pay a small amount of money for a "processing fee" or "shipping and handling." These types of free sample offers are often fake.

Another scenario is when you have to provide your credit card details on a website that has no track record or integrity before you can access a "free trial offer". You'll often find you'll never be able to get the free trial canceled and at worst they steal your credit card information.

## **#2. The free sample website looks unprofessional.**

A quick look at a website offering the free sample can give you pointers if a free sample is fake.

### **The few things to look out for are:**

- No real product on the website besides the free sample. (and the free sample product does not really exist.)
- The site has many advertisements and forms that will submit without any info filled in.
- After submitting the form the website pop-up is an unrelated advertisement.
- The Website is a clone/copy of a legitimate business website.
- A website created within the past few months and is often a subdomain (e.g . freesample.ebay.com)

## **#3. The free sample requires personal information you aren't comfortable sharing.**

It is not uncommon for a free sample website to require, at a minimum, that you provide your name and address. This is acceptable information to require because they need this information to mail the free sample to you. However, if you feel they are asking for too much information then you should walk away from such a free sample.

For example, if they are asking for your social security number **IT'S FAKE!**

#### **#4. No company behind the free sample!**

Reliable companies give out free samples of their products to create demand for the product. The reason they are giving out the free samples is they are hoping you will LOVE it, tell your friends about it, and then continue to buy it in the future.

But a fake free sample often doesn't have a company behind it. Or when it does have a company name, it often doesn't have an address, or the company registered to the address doesn't exist. Furthermore, the company telephone number doesn't work, it's a personal cell phone, or it's a number to a different country!

#### **#5. The free sample is too good to be true.**

Most freebies are only worth a few dollars. Occasionally there are freebies worth a bit more (maybe \$20 or \$30). With that said you should begin to get suspicious of a free sample if its value is too good to be true.

**For instance, a free sample worth \$500 is likely fake.**

#### **#6. Free Sample form for an item On a Google Doc Page.**

Google Doc forms are untraceable. This means that anyone can create one and there is no way to find out who the original creator of the document is. In recent years I have seen FAKE free sample forms created using Google Docs. Many times I have filled them out just to see what would happen. What happened was... nothing. Absolutely nothing. I recommend that if you run across a free sample offer that is on a Google Doc form to leave it alone and not fill it out.

## #7 Free Sample offers that result in ENDLESS Surveys !

I know this can get confusing so bear with me here. Sometimes you will have a free sample that requires you to answer a few questions. This is particularly true when it comes to product testing. The reason for this is that the company wants to make sure you are within their testing demographics.

They don't want a 75-year-old man testing out their newest lip gloss however if you are filling out a form to get a free sample for perfume and you are asked questions about your car insurance, then about your eating habits and on... and on... and on.. you can almost guarantee that it's a fake freebie just used to gain your information.

Now that you understand how to spot a fake free sample I am going to show you some examples of some FAKE free samples for you to check out.

- [FREE Samples in the mail](#) = Classic free samples with surveys. You will have to do endless surveys to get any free samples. In fact, I've never seen anyone actually get them! Your email and phone number will be sold off to so many companies.
- <http://www.freepuff.com/> – Offer is for a free sample of candy. You will not get any candy.
- <http://www.freemilliondollarbills.com/free-stuff.htm> – Offer is a fake 1 million dollar bill. You will NOT get a fake 1 million dollar bill. In fact, every free sample offer on this page is FAKE.

- <https://www.facebook.com/liquidiv/> – Posted a year or two ago. I believe they STOPPED giving out Freebies a long time ago. Workman's Friend – This offer is for hand wash from this brand. You will never see this free sample... Ever.
- <https://www.freezerlabels.net/free-samples> – Looks like an easy straightforward free sample but you will never get it. I don't believe (but you can't be sure ) that they are trying to scam anyone. I think they just never took the form down.
- [Free L'Occitane Lavender Hand Cream Sample!](#) – You'll never get it. It's not associated with any business. I have no idea where this form came from.
- [Free 1st Aid Kit](#) – You'll never get it. Again, I don't think they are trying to scam you... I just think it was never taken down.
- [Free T-Shirt](#) – You will never get this freebie in the mail. Ever. I believe it's an old freebie.
- [Ring sizer](#) – You won't get it. It's a fake free sample. Sorry.
- <https://appleseedfood.com/free-samples/> – Apple Seed Free Samples (There are a few) – Every few months this webpage comes out with some new free samples. I won't lie...They look real! I even fell for one or two. This webpage is based out of India. I believe they use fake freebies to collect email addresses and emails but I can't be sure. Be aware that anything that comes from APPLESEEDS FOOD is FAKE!
- [InTur Travel Agency offer](#) – Anything from this webpage is 100% FAKE! YoFreeSamples.com did some digging to find out that this company is from an apartment building in RUSSIA. It's totally a 100% FAKE FREEBIE and I urge you to stay away!

- [Free Shampoo Bar from Conroe Brewery](#) – Totally Fake. You'll never get this free sample by mail.
- [Free Sample of Geek Hand Soap](#) – This one LOOKS so real! But it's another Russian FAKE! Don't fall for it – although it's hard not to. You will never have your free sample of soap and at worst your information will get sold or stolen!
- [FREE Z-Grip Ballpoint Pen!](#) – You won't ever get it. It looks very real and it's easy to be fooled by it BUT it's FAKE!
- [Fizzy Wizzies](#) – This claims you will get 5-8 bathtime Fizzy Wizzies that are colorful, effervescent tablets that fizz up bath water and make kids' bath time fun and educational.- You will never get them.
- [Baby On Board Sticker & Pin](#) – Claims this is good for traveling mothers... And it might be – but you will never get this item!

If you find any other free samples please message me and let me know so I can add them to my list.

# Free Makeup and Beauty Samples

**The amount of free makeup and free beauty samples I get in the mail is really incredible. Usually, by the end of the year, I am swimming in free makeup and beauty products. It's so crazy easy - seriously!**

The reason for my HUGE pile of free makeup and free beauty samples is because the beauty industry is so competitive. For them to stand out in a huge sea of other products they have to get the word out there about their products.

One way they do this is by sending free samples of their products to try before they are released, or they are about to be released. Many are looking for honest reviews and feedback on how you like their products.

**There are four main ways to get free makeup and beauty samples.**

- **Easy Free Samples by mail (or in stores).** These are where you simply fill out the form with your name and address. They arrive at your doorstep in just a few weeks. These are great, but often the offers expire quickly. I will be listing them on an ad-free page on my blog. This is because many of them expire FAST (within a day or two) and it would be impossible to keep updating this ebook multiple times a week.!!

- Free makeup and free beauty samples in exchange for your honest review. There are companies that specialize specifically in pairing up people who love makeup and beauty samples with free makeup and free beauty samples. You easily could be one of them. All you have to do is sign up! If you are accepted then you will be sent free products in exchange for your free and honest review. Not everyone will ask to review everything, but if you apply for enough items you will eventually be invited. Also, keep in mind that many of these companies are looking for people who fit their targeted demographic. If you are a man you'll probably have a hard time getting free makeup by doing product reviews!

**In this section below I will give you a list of Trusted & FREE Companies you can sign up for to try and get free makeup and beauty samples in exchange for your honest review.**

- Buy Free Make Up using my “ famous “ stacking technique! Gee... are you sick of me talking about this technique yet?! I just use it so much that I can't help talking about it a ton. Here's how it goes:

**Step #1.** Snag yourself a free Gift Card using any (or many) of the ways I list to get free gift cards in the “Free Gift Card” Section.

**STEP #2.** If your Free Gift Cards are not going to cover the amount of the item you want, then snag a discounted gift card at Raise.com.

**STEP #3.** Use a cashback app to get the item for less. I LOVE Ebates and TopsCashBack.com.

**STEP #4.** Sign up for the company's email list because they will often send you coupons. AND use the Google Extension on your webpage browser called Honey. Honey will automatically add any coupon codes at checkout. This will save you even More MONEY! Use these 4 steps to get the beauty item for FREE with free samples or product testing or at least get it at a KILLER Deal!

- **Combine In-store Sales with Coupons to get FREE Makeup!** I once ran into a 90% off EVERYTHING sale at Rite Aid. I used this sale in combination with coupons to score a BASKET FULL of free makeup. While a sale like that is rare, combining sales with coupons to get free makeup is not rare at all! And now with the internet, it's easier than ever to do it!

Because this is NOT an ebook about couponing (and frankly I am NOT a couponing expert by any means ) I am not going to go into the details of how to coupon. However, I will give you a few tips.

**I recommend following blogs that combine sales with coupons.** Many of these blogs will spell it all out for you! Where to get what coupon and where to use them.

**Next, search for hashtags on Instagram of couponers.** Hashtags like #couponcommunity #CouponMom #couponfamily #deals #neverpayfullprice #extremecouponer . There are so many resources online for you to use! Find a few you love and follow JUST them. Otherwise, you can overwhelm yourself very easily.

**Lastly, just coupon at 1 to 2 stores to start.** If you try to coupon at a ton of stores you will easily get confused, frustrated, and overwhelmed. Personally, I LOVE drugstore couponing!

# How To Get Free TV!

---

If there is one thing I hate it's cable. We "Cut the Cable" years ago. However, if you're anything like me then I am sure there are still TV shows and movies you want to watch. Luckily for you, I have a few tricks up my sleeve. You can watch ALL of your favorite TV shows for free, and safely.

Many of these services work on advertising. They show ads on the side or top of the home page. I will advise you when going through this list do NOT download anything. These are not services where you have to download the movie or TV show. If you are asked to download the movie or show then you probably clicked on something wrong.

- [Peacock](#) – Peacock is probably the best known FREE TV streaming service. While it does have a paid version, it also has an amazing FREE option. It has a ton of NBC content as well as movies. It even has its own original programming!
- [Roku Channel](#)
- [IMDB TV](#)
- [Sling TV Free](#) - Free with Amazon Prime ( hopefully it's not expired when you are reading this. Also, free 3 Day Trail without prime.
- [Crackle](#) – ad-based service.
- [Pluto TV](#) is noteworthy for offering not only on-demand movies but also live TV channels including CBS News and CNET.

- [Tubi TV](#)
- [Plex](#).
- [Hoopla](#) - This digital-media service allows you to check out all kinds of stuff -- from books to movies to TV shows. When you "borrow" one, you have 72 hours in which to watch it. Library Card Needed.
- [Crunchyroll, VRV, Funimation](#) - two of the most popular anime streaming services.
- [Kodi](#)
- [Popcornflix](#) - is a free streaming app specifically for movie content. The app boasts a modest 700 movies with new films added frequently.
- [Xumo](#) - Whether you want it now or later, Xumo offers live TV and on-demand options for your TV viewing pleasure. You can choose from an assortment of major network news channels that are live streaming.
- [Funny or Die](#) - The go-to streaming app for comedy programming is Funny or Die.
- [NewsOn](#) - Streaming video isn't always just about entertainment. For the more serious-minded cord-cutters out there, the NewsON app provides hundreds of local and national news streams.
