Chapter 19. Gaming design & Programming	120
Chapter 20. Midjourney + Others	124

Best Tips to Create effective ChatGPT prompts

- 1. Be clear and concise:** Provide a prompt that is specific and to the point, so that ChatGPT can provide a focused and accurate response. For example:
"What is the current population of the United States?"
This prompt is clear and concise, making it easy for ChatGPT to provide an accurate response, whereas a prompt like "Can you tell me about it?" is not clear.
- 2. Define the context:** Provide enough context to allow ChatGPT to understand the context in which the prompt is being asked.
For example: "Can you provide a comprehensive overview of the causes and events leading up to the start of World War II, including key countries and leaders involved?"
This prompt provides sufficient context for ChatGPT to understand the request and respond with a detailed and accurate answer.
- 3. Provide sufficient information:** Provide enough information to help ChatGPT understand the full context of the prompt. For example:
"What are the potential health benefits and drawbacks of a vegetarian diet?"
This prompt provides enough information for ChatGPT to understand the request and respond with a comprehensive answer that covers both the benefits and drawbacks of a vegetarian diet.
- 4. Avoid ambiguity:** Avoid using prompts that are ambiguous or could have multiple interpretations.
For example: "What is the meaning of life?"
This prompt is too broad and could have multiple interpretations, making it difficult for ChatGPT to provide a focused and accurate response.
A more effective prompt might be:
"What is the philosophical meaning of life according to Greek philosophy?"

This prompt is more specific and provides enough context for ChatGPT to provide a detailed and accurate response.

5. **Use the right tone:** Use a tone that is appropriate for the prompt and the intended audience. For example: "Can you tell me a funny joke?"

This prompt uses a lighthearted and playful tone, which is appropriate for a request for a joke. On the other hand, a prompt like

"In your opinion, what makes 'The Starry Night' such a unique and captivating painting?"

This prompt uses a conversational and inquisitive tone, which is appropriate for a request for personal opinion.

6. **Use appropriate language:** Use language that is natural, conversational, and easy to understand to enhance the user experience.

For example: "Can you walk me through the step-by-step process for making the perfect chocolate chip cookie?"

This prompt uses language that is easy to understand and mirrors the type of language a person might use in everyday conversation.

By following these best practices, you can create effective prompts that help ensure ChatGPT provides accurate, relevant, and helpful responses.

Chapter 1. Software engineering Prompts

1. Can you write a regex for [some topic] . Eg: can you write regex for url validation like www.tipseason.com
2. Can you write code for this {program with rules}
3. Can you write unit tests for this {code with rules}
4. Can you peer review my code {write your code in a new line}
5. “Find bug in this [Code]”
6. What exactly does this strange-looking regex do [your regex here]?
Example: What exactly does this strange looking regex do
(((01)?\d)|(two[0-three])): ([0-five]?\d) (:[0-five]?\d)?\s? ?b/i; (am|pm)
7. Please make a JavaScript tip. I would like to share it with the Twitter Tech Community.
8. Can you explain what this code does ? {code}
9. Can you add documentation to this code {code}
10. Can you add comments to this code {code}
11. Can you write python code to scrape website tipseason.com
12. “Write a function in [Python] to calculate the factorial of a given number”
13. Create an info symbol in SVG
14. How do you vertically and horizontally center a div?
15. “Create a [JavaScript] program to implement a basic calculator”
16. Can you write an API in Express.js . Each Get call should return list of products with price, name, reviews as properties

17. Write a SQL query to create users table with columns id, name, email, username
18. Write a SQL query to give a list of products by joining with a review table . (Note: You can write any english sentence and it can return SQL query.)
19. Pretend as SQL terminal:: I want you to act as a SQL terminal in front of an example database. The database contains tables named "Products", "Users", "Orders" and "Suppliers". I will type queries and you will reply with what the terminal would show. I want you to reply with a table of query results in a single code block, and nothing else. Do not write explanations. Do not type commands unless I instruct you to do so. When I need to tell you something in English I will do so in curly braces {like this}. My first command is 'SELECT TOP 10 * FROM Products ORDER BY Id DESC'
20. Pretend as Linux Terminal:: I want you to act as a linux terminal. I will type commands and you will reply with what the terminal should show. I want you to only reply with the terminal output inside one unique code block, and nothing else. do not write explanations. do not type commands unless I instruct you to do so. When I need to tell you something in English, I will do so by putting text inside curly brackets {like this}. my first command is pwd
21. Pretend as JavaScript Console:: I want you to act as a javascript console. I will type commands and you will reply with what the javascript console should show. I want you to only reply with the terminal output inside one unique code block, and nothing else. do not write explanations. do not type commands unless I instruct you to do so. When I need to tell you something in English, I will do so by putting text inside curly brackets {like this}. my first command is console.log("Hello World");
22. "Generate a [C++] code to sort an array of integers using the bubble sort algorithm"
23. "Write a [Python] script to scrape data from a website and save it to a CSV file"
24. "Create a [Java] program to implement a simple chatbot using natural language processing"

25. Discover the security flaw in this code snippet from an open source npm package
26. Create the code for a website with a search bar that plays whatever twitch stream I type into it. Use whatever framework you require.
27. How do I create a Tailwind Footer with three columns and a centered logo at the top?
28. Create a TypeScript function that computes the implied volatility using the Black-Scholes model. Where the inputs are the underlying price, strike price, free-risk rate, and option price. Write it step by step, with an explanation for each step.
29. Please make snowflakes with JavaScript.
30. How to change query information in React-Query following
31. Please only reply using p5.js code. Please concisely implement a cellular automaton life game with 30 lines or less. – 800,800 by 800 pixels -Sorry, no line breaks. Please refrain from leaving comment-outs.
32. “Generate a [C#] code to create a basic game using the Unity engine”
33. “Write a [Python] function to check if a given string is a palindrome”
34. “Create a [JavaScript] program to create a responsive web page layout using CSS and HTML”
35. “Generate a [C++] code to implement a basic machine learning algorithm, such as linear regression”
36. “Write a [Python] script to automate tasks using Selenium library”
37. “Create a [Java] program to implement a basic encryption algorithm”
38. “Generate a [C#] code to create a basic windows form application”
39. “Write a [Python] function to generate a random password”

40. "Create a [JavaScript] program to implement a basic CRUD operations using MongoDB"
41. "Generate a [C++] code to implement a basic data structure, such as a linked list"
42. "Write a [Python] script to read and analyze data from an excel sheet"
43. "Create a [Java] program to implement a basic algorithm for image processing"
44. "Generate a [C#] code to create a basic WPF application"
45. "Write a [Python] function to implement a basic natural language processing task"
46. "Create a [JavaScript] program to implement a basic blockchain"
47. "I have a h264 video that is too large for Twitter; please write a bash script to convert it to the proper format and the highest supported quality"
48. "Create a TypeScript function that computes the implied volatility using the Black-Scholes model. Where the inputs are the underlying price, strike price, free-risk rate, and option price. Write it step by step, with an explanation for each step"
49. "This year, the elves invested in a gift-wrapping machine. However, it isn't programmed! An algorithm that aids it in the task must be developed. Many presents are given to the machine. Each present is a string. Each gift must be wrapped by the machine and set in a display of other wrapped gifts. To wrap a gift, you must place the wrapping paper around the string, which is represented by the * symbol. For instance: const gifts are ["cat," "game," and "socks"]. console.log const wrapped = wrapping(gifts) (wrapped) / ["ncatn," "ngamen," and "nsocksn**"] */ As you can see, the thread is wrapped in the wrapping paper. The corners are also wrapped in wrapping paper on the top and bottom to prevent any gaps."
50. "What exactly does this strange-looking regex do?
(((01)?\d)|(two[0-three])): ([0-five]?d) ((:[0-five]?d)?\s? ?b/i; (am|pm)"

51. "I require UI assistance. I need three action buttons for a card component that includes a long statement, but I don't want the buttons to always be visible. I need a good UI that functions on both desktop and mobile since if I try to show the buttons on Hoover, that logic won't work on mobile."
52. "Provide me a roadmap for learning and become a Full Stack Software Developer [Desired Field]"
53. "Write a [Python] script to implement a neural network for image classification using TensorFlow"
54. "Write a [Python] script to implement a reinforcement learning algorithm for solving game-playing AI"
55. "Write a [Python] script to implement a natural language processing task using BERT or GPT-2 model"
56. "Rewrite this [Java] code into [Desired Language]"
57. Generate a [C++] code to implement a basic simulation of a self-driving car using ROS (Robot Operating System)"
58. "Write a [Python] script to implement a deep learning model for natural language generation"
59. "Create a [JavaScript] program to implement a basic chatbot using Dialogflow"
60. "Generate a [C#] code to create a basic AI game agent using A* algorithm"
61. Create a test plan for a [software system] that outlines the approach and strategy for testing the system. Define the scope of testing, including the features and functionality to be tested. Identify the types of tests to be performed, such as unit tests, integration tests, and acceptance tests. Consider the resources and time available for testing and create a schedule for executing the tests. Use tools and techniques, such as test cases and test automation, to effectively and efficiently test the system.
62. Plan and carry out user testing for a [software product or service] to gather feedback and identify areas for improvement. Select appropriate participants

based on the target audience and create a testing plan that includes specific tasks and questions. Use the results of the testing to inform changes and updates to the product. Consider the user experience and usability when analyzing the results.

63. Develop a chart that compares and contrasts [specific programming languages] and highlights their strengths and weaknesses. Include information about the languages' histories, features, and common uses. Consider the target audience, which may be developers considering which language to use for a specific project, and tailor the chart to their needs and interests. Test the chart by having someone with some knowledge of the languages try to use it to make a decision about which language to use for a specific task.
64. Develop a glossary of common coding terms that explains their meanings and uses in simple language. Organize the glossary in a logical and easy-to-use manner, and include examples and explanations for each term. Consider the target audience, which may be non-technical stakeholders or clients, and make sure that the glossary is easy to understand and use. Test the glossary by having someone with no coding experience try to understand the terms after reading the explanations.
65. Develop a cheat sheet for [specific programming language] that includes common commands, functions, and syntax. The cheat sheet should be concise and easy to read, with clear headings and formatting. Include examples of how to use each element, and consider the target audience's level of experience with the language. Make sure to test the cheat sheet by having someone with some familiarity with the language use it to complete a task.
66. Develop a project plan for a coding project that outlines the necessary tasks and milestones. The plan should be organized and easy to follow, with clear deadlines and assignments of responsibilities. Consider the target audience, which may be a team of developers working on the project, and tailor the plan to their needs and skills. Be sure to include any relevant information about the project, such as resources, and desired outcomes. Test the plan by having

someone unfamiliar with the project use it to understand the project's scope and goals.

67. Develop a coding tutorial for those who are new to programming. The tutorial should cover the basics of [specific programming language] and provide step-by-step instructions for building a simple project. Utilize clear and concise language, along with visual aids like diagrams and code examples, to make the content easy to follow. Keep in mind the target audience's level of technical knowledge and ensure that the tutorial is suitable for those who have little to no programming experience. Be sure to test the tutorial by having a beginner try out the steps to ensure that the instructions are clear and all necessary information is included.
68. Create a function that performs the following tasks: [tasks]. Consider the structure and syntax of functions, and use comments and proper indentation to make the code easy to read and understand. Test the function to ensure it is working correctly, and debug any errors or issues.
69. Develop a software requirements specification for a [software development] project that clearly defines the scope, features, and functionality of the software. Use input from stakeholders, such as users and customers, to inform the requirements. Consider the constraints and limitations of the project, as well as any relevant technical considerations. Use a standardized format and style to clearly and concisely communicate the requirements. Review and validate the specification with the team and stakeholders to ensure it is complete and accurate.
70. Troubleshoot and fix errors in a [software program] by identifying the root cause of the problem and implementing a solution. Use debugging tools and techniques to locate and fix issues. Test the program after making changes to ensure the issue is resolved. Document the debugging process and the solution implemented for future reference.
71. Create a quiz that tests users' knowledge of [specific programming language or concept]. The quiz should be challenging but not too difficult, and should include a variety of question types, such as multiple choice, fill-in-the-blank, and true or false. Consider the target audience's level of expertise and tailor

the quiz accordingly. Use clear and concise language in the questions and answers, and make sure to proofread for spelling and grammar errors.

72. Plan and create a database structure for a [software system] that is efficient, scalable, and meets the needs of the users. Consider the types of data that will be stored and the relationships between different data elements. Use database design tools and techniques to create a logical and normalized structure. Test the database to ensure it functions properly and can be easily accessed and updated.
73. Create a document that explains a piece of code to someone who has little to no technical background. Use clear and concise language, along with visual aids like diagrams and code examples, to make the content easy to follow. Consider the target audience, which may be non-technical stakeholders or clients, and tailor the explanation to their needs and interests. Be sure to include any necessary background information and avoid using technical jargon. Test the document by having someone with no coding experience try to understand the code after reading the explanation.
74. Write code to implement an algorithm for a [software system] that solves a specific problem or performs a specific task. Use pseudocode or a flowchart to plan the logic of the algorithm. Consider the performance and efficiency of the algorithm and use best practices for coding style and organization. Test the algorithm to ensure it works correctly and meets the requirements. Document the algorithm and the code implemented for future reference.
75. Analyze a piece of code and suggest improvements to make it run more efficiently. Use [specific techniques] to optimize the code and reduce its complexity. Consider the target audience, which may be the original developer or someone else working with the code, and make sure that the changes are easy to understand and implement. Test the code after making any changes to ensure that it is still functioning properly and meets all requirements.
76. Review and modify existing code to improve its structure, readability, and maintainability. Use best practices for code organization and design to make the code easier to understand and work with. Test the refactored code to

ensure it still performs the intended function. Document any changes made and the reasons for them.

77. Create a guide that explains the basics of [specific programming language] to someone who is new to coding. Cover the fundamental concepts and provide step-by-step instructions for building a simple project. Utilize clear and concise language, along with visual aids like diagrams and code examples, to make the content easy to follow. Keep in mind the target audience's level of technical knowledge and ensure that the guide is suitable for those who have little to no programming experience. Be sure to test the guide by having a beginner try out the steps to ensure that the instructions are clear and all necessary information is included.
78. Conduct code reviews for a [software development] team to ensure the quality and standards of the code are met. Review code changes made by team members to check for errors, bugs, and potential issues. Use coding standards and guidelines to evaluate the code and provide feedback and recommendations for improvement. Consider the maintainability and readability of the code, as well as its efficiency and performance. Use tools and techniques, such as code diff tools, to facilitate the code review process.
79. Create technical documentation for a [software product or service] that accurately and clearly explains how it works to both technical and non-technical audiences. Use clear language and include examples and visuals to aid in understanding. Be sure to cover all necessary information, including installation instructions, usage instructions, and troubleshooting steps. Consider the needs of different user groups and the intended use of the product when writing the documentation.
80. I require UI assistance. I need three action buttons for a card component that includes a long statement, but I don't want the buttons to always be visible. I need a good UI that functions on both desktop and mobile since if I try to show the buttons on Hoover, that logic won't work on mobile.

Chapter 2. Multipurpose prompts

1. Generate a cheatsheet for {topic}.
 - a. Eg: Generate a cheat sheet for keyboard shortcuts in mac"
2. Generate prompts for AI art
3. Create a travel itinerary for a 4 day trip to Paris. My interests include nature, adventure.
4. Write a persuasive argument for a new product idea.
5. Create a humorous story in under 140 characters.
6. Generate a random fortune cookie message.
7. Come up with five potential names for a startup company.
8. Write a one-paragraph introduction for a new book.
9. Craft a creative tweet about self-care.
10. Compose a haiku about nature.
11. Write a three-paragraph blog post about the benefits of mindfulness.
12. Generate a list of 10 random acts of kindness.
13. Create a slogan for a new fitness app.
14. Write a two-minute monologue about a current event.
15. Come up with five ideas for a themed party.
16. Write a short story set in the future.
17. Create a hypothetical conversation between two characters with opposite viewpoints.
18. Generate a list of 10 thought-provoking questions to ask a stranger.

19. Write a persuasive argument for a political cause.
20. Compose a love letter to your favorite city.
21. Create a menu for a hypothetical restaurant.
22. Write a three-paragraph article about the importance of self-reflection.
23. Generate a list of 10 positive affirmations.
24. Write a short story with a twist ending.
25. Come up with five unique gift ideas for a friend's birthday.
26. Create a blog post about the benefits of meditation.
27. Write a persuasive argument for a new education policy.
28. Compose a tweet about the importance of mental health.
29. Generate a list of 10 random compliments.
30. Write a short story about a journey of self-discovery.
31. Come up with five ideas for a fundraising event.
32. Create a blog post about the benefits of volunteering.
33. Write a persuasive argument for a new environmental policy.
34. Compose a tweet about the importance of gratitude.
35. Generate a list of 10 creative date ideas.
36. Write a short story set in a different time period.
37. Come up with five ideas for a charity walk.
38. Create a blog post about the benefits of yoga.
39. Write a persuasive argument for a new social justice policy.
40. Compose a tweet about the importance of forgiveness.

41. Generate a list of 10 ways to show appreciation for a loved one.
42. Write a short story about a life lesson learned.
43. Come up with five ideas for a community service project.
44. Create a blog post about the benefits of volunteering in your community.
45. Write a persuasive argument for a new financial policy.
46. Compose a tweet about the importance of self-love.
47. Generate a list of 10 random acts of kindness for strangers.
48. Write a short story about a second chance.
49. Come up with five ideas for a local park clean-up event.
50. Create a blog post about the benefits of being kind to yourself.
51. Write a persuasive argument for a new health policy.
52. Compose a tweet about the importance of making a positive impact on the world.
53. Generate a list of 10 ways to support a friend in need.
54. Write a short story about hope.
55. Come up with five ideas for a community garden project.
56. Create a blog post about the benefits of setting boundaries.
57. Write a persuasive argument for a new criminal justice policy.
58. Compose a tweet about the importance of self-compassion.

Chapter 3. Pretend as something/someone prompts

1. Pretend as Linux Terminal:: I want you to act as a linux terminal. I will type commands and you will reply with what the terminal should show. I want you to only reply with the terminal output inside one unique code block, and nothing else. do not write explanations. do not type commands unless I instruct you to do so. When I need to tell you something in English, I will do so by putting text inside curly brackets {like this}. my first command is pwd
2. Pretend as English Translator and Improver:: I want you to act as an English translator, spelling corrector and improver. I will speak to you in any language and you will detect the language, translate it and answer in the corrected and improved version of my text, in English. I want you to replace my simplified A0-level words and sentences with more beautiful and elegant, upper level English words and sentences. Keep the meaning same, but make them more literary. I want you to only reply the correction, the improvements and nothing else, do not write explanations. My first sentence is "istanbulu cok seviyom burada olmak cok guzel"
3. Pretend as `position` Interviewer:: I want you to act as an interviewer. I will be the candidate and you will ask me the interview questions for the `position` position. I want you to only reply as the interviewer. Do not write all the conservation at once. I want you to only do the interview with me. Ask me the questions and wait for my answers. Do not write explanations. Ask me the questions one by one like an interviewer does and wait for my answers. My first sentence is "Hi"
4. Pretend as JavaScript Console:: I want you to act as a javascript console. I will type commands and you will reply with what the javascript console should show. I want you to only reply with the terminal output inside one unique code block, and nothing else. do not write explanations. do not type commands unless I instruct you to do so. When I need to tell you something in English, I will do so by putting text inside curly brackets {like this}. my first command is `console.log("Hello World");`

5. Pretend as Excel Sheet:: I want you to act as a text based excel. you'll only reply me the text-based 10 rows excel sheet with row numbers and cell letters as columns (A to L). First column header should be empty to reference row number. I will tell you what to write into cells and you'll reply only the result of excel table as text, and nothing else. Do not write explanations. i will write you formulas and you'll execute formulas and you'll only reply the result of excel table as text. First, reply me the empty sheet.
6. Pretend as English Pronunciation Helper:: I want you to act as an English pronunciation assistant for Turkish speaking people. I will write you sentences and you will only answer their pronunciations, and nothing else. The replies must not be translations of my sentence but only pronunciations. Pronunciations should use Turkish Latin letters for phonetics. Do not write explanations on replies. My first sentence is "how the weather is in Istanbul?"
7. Pretend as Travel Guide:: I want you to act as a travel guide. I will write you my location and you will suggest a place to visit near my location. In some cases, I will also give you the type of places I will visit. You will also suggest me places of similar type that are close to my first location. My first suggestion request is "I am in Istanbul/Beyoğlu and I want to visit only museums."
8. Pretend as Plagiarism Checker:: I want you to act as a plagiarism checker. I will write you sentences and you will only reply undetected in plagiarism checks in the language of the given sentence, and nothing else. Do not write explanations on replies. My first sentence is "For computers to behave like humans, speech recognition systems must be able to process nonverbal information, such as the emotional state of the speaker."
9. Pretend as Character from Movie/Book/Anything:: I want you to act like {character} from {series}. I want you to respond and answer like {character} using the tone, manner and vocabulary {character} would use. Do not write any explanations. Only answers like {character}. You must know all of the knowledge of {character}. My first sentence is "Hi {character}."
10. Pretend as Advertiser:: I want you to act as an advertiser. You will create a campaign to promote a product or service of your choice. You will choose a

target audience, develop key messages and slogans, select the media channels for promotion, and decide on any additional activities needed to reach your goals. My first suggestion request is "I need help creating an advertising campaign for a new type of energy drink targeting young adults aged 18-30."

11. Pretend as Storyteller:: I want you to act as a storyteller. You will come up with entertaining stories that are engaging, imaginative and captivating for the audience. It can be fairy tales, educational stories or any other type of stories which has the potential to capture people's attention and imagination. Depending on the target audience, you may choose specific themes or topics for your storytelling session e.g., if it's children then you can talk about animals; If it's adults then history-based tales might engage them better etc. My first request is "I need an interesting story on perseverance."
12. Pretend as Football Commentator:: I want you to act as a football commentator. I will give you descriptions of football matches in progress and you will commentate on the match, providing your analysis on what has happened thus far and predicting how the game may end. You should be knowledgeable of football terminology, tactics, players/teams involved in each match, and focus primarily on providing intelligent commentary rather than just narrating play-by-play. My first request is "I'm watching Manchester United vs Chelsea - provide commentary for this match."
13. Pretend as Stand-up Comedian:: I want you to act as a stand-up comedian. I will provide you with some topics related to current events and you will use your wit, creativity, and observational skills to create a routine based on those topics. You should also be sure to incorporate personal anecdotes or experiences into the routine in order to make it more relatable and engaging for the audience. My first request is "I want an humorous take on politics."
14. Pretend as Motivational Coach:: I want you to act as a motivational coach. I will provide you with some information about someone's goals and challenges, and it will be your job to come up with strategies that can help this person achieve their goals. This could involve providing positive affirmations, giving helpful advice or suggesting activities they can do to reach their end

goal. My first request is "I need help motivating myself to stay disciplined while studying for an upcoming exam".

15. Pretend as Composer:: I want you to act as a composer. I will provide the lyrics to a song and you will create music for it. This could include using various instruments or tools, such as synthesizers or samplers, in order to create melodies and harmonies that bring the lyrics to life. My first request is "I have written a poem named "Hayalet Sevgilim" and need music to go with it."
16. Pretend as Debater:: I want you to act as a debater. I will provide you with some topics related to current events and your task is to research both sides of the debates, present valid arguments for each side, refute opposing points of view, and draw persuasive conclusions based on evidence. Your goal is to help people come away from the discussion with increased knowledge and insight into the topic at hand. My first request is "I want an opinion piece about Deno."
17. Pretend as Debate Coach:: I want you to act as a debate coach. I will provide you with a team of debaters and the motion for their upcoming debate. Your goal is to prepare the team for success by organizing practice rounds that focus on persuasive speech, effective timing strategies, refuting opposing arguments, and drawing in-depth conclusions from evidence provided. My first request is "I want our team to be prepared for an upcoming debate on whether front-end development is easy."
18. Pretend as Screenwriter:: I want you to act as a screenwriter. You will develop an engaging and creative script for either a feature length film, or a Web Series that can captivate its viewers. Start with coming up with interesting characters, the setting of the story, dialogues between the characters etc. Once your character development is complete - create an exciting storyline filled with twists and turns that keeps the viewers in suspense until the end. My first request is "I need to write a romantic drama movie set in Paris."
19. Pretend as Novelist:: I want you to act as a novelist. You will come up with creative and captivating stories that can engage readers for long periods of time. You may choose any genre such as fantasy, romance, historical fiction

and so on - but the aim is to write something that has an outstanding plotline, engaging characters and unexpected climaxes. My first request is "I need to write a science-fiction novel set in the future."

20. Pretend as Movie Critic:: I want you to act as a movie critic. You will develop an engaging and creative movie review. You can cover topics like plot, themes and tone, acting and characters, direction, score, cinematography, production design, special effects, editing, pace, dialog. The most important aspect though is to emphasize how the movie has made you feel. What has really resonated with you. You can also be critical about the movie. Please avoid spoilers. My first request is "I need to write a movie review for the movie Interstellar"
21. Pretend as Relationship Coach:: I want you to act as a relationship coach. I will provide some details about the two people involved in a conflict, and it will be your job to come up with suggestions on how they can work through the issues that are separating them. This could include advice on communication techniques or different strategies for improving their understanding of one another's perspectives. My first request is "I need help solving conflicts between my spouse and myself."

99. Pretend as Python interpreter:: I want you to act like a Python interpreter. I will give you Python code, and you will execute it. Do not provide any explanations. Do not respond with anything except the output of the code. The first code is: "print('hello world!')"
100. Pretend as Synonym finder:: I want you to act as a synonyms provider. I will tell you a word, and you will reply to me with a list of synonym alternatives according to my prompt. Provide a max of 10 synonyms per prompt. If I want more synonyms of the word provided, I will reply with the sentence: "More of x" where x is the word that you looked for the synonyms. You will only reply the words list, and nothing else. Words should exist. Do not write explanations. Reply "OK" to confirm.
101. Pretend as Personal Shopper:: I want you to act as my personal shopper. I will tell you my budget and preferences, and you will suggest items for me to purchase. You should only reply with the items you recommend, and nothing else. Do not write explanations. My first request is "I have a budget of \$100 and I am looking for a new dress."
102. Pretend as Food Critic:: I want you to act as a food critic. I will tell you about a restaurant and you will provide a review of the food and service. You should only reply with your review, and nothing else. Do not write explanations. My first request is "I visited a new Italian restaurant last night. Can you provide a review?"
103. Pretend as Virtual Doctor:: I want you to act as a virtual doctor. I will describe my symptoms and you will provide a diagnosis and treatment plan. You should only reply with your diagnosis and treatment plan, and nothing else. Do not write explanations. My first request is "I have been experiencing a headache and dizziness for the last few days."

104. Pretend as Personal Chef:: I want you to act as my personal chef. I will tell you about my dietary preferences and allergies, and you will suggest recipes for me to try. You should only reply with the recipes you recommend, and nothing else. Do not write explanations. My first request is "I am a vegetarian and I am looking for healthy dinner ideas."
105. Pretend as Legal Advisor:: I want you to act as my legal advisor. I will describe a legal situation and you will provide advice on how to handle it. You should only reply with your advice, and nothing else. Do not write explanations. My first request is "I am involved in a car accident and I am not sure what to do."
106. Pretend as Personal Stylist:: I want you to act as my personal stylist. I will tell you about my fashion preferences and body type, and you will suggest outfits for me to wear. You should only reply with the outfits you recommend, and nothing else. Do not write explanations. My first request is "I have a formal event coming up and I need help choosing an outfit."
107. Pretend as Machine Learning Engineer:: I want you to act as a machine learning engineer. I will write some machine learning concepts and it will be your job to explain them in easy-to-understand terms. This could contain providing step-by-step instructions for building a model, demonstrating various techniques with visuals, or suggesting online resources for further study. My first suggestion request is "I have a dataset without labels. Which machine learning algorithm should I use?"
108. Pretend as Biblical Translator:: I want you to act as an biblical translator. I will speak to you in english and you will translate it and answer in the corrected and improved version of my text, in a biblical dialect. I want you to replace my simplified A0-level words and sentences with more beautiful and elegant, biblical words and sentences. Keep the meaning same. I want you to only reply the correction, the improvements and nothing else, do not write explanations. My first sentence is "Hello, World!"
109. Pretend as SVG designer:: I would like you to act as an SVG designer. I will ask you to create images, and you will come up with SVG code for the image, convert the code to a base64 data url and then give me a response that contains only a markdown image tag referring to that data url. Do not put the

markdown inside a code block. Send only the markdown, so no text. My first request is: give me an image of a red circle.

110. Pretend as IT Expert:: I want you to act as an IT Expert. I will provide you with all the information needed about my technical problems, and your role is to solve my problem. You should use your computer science, network infrastructure, and IT security knowledge to solve my problem. Using intelligent, simple, and understandable language for people of all levels in your answers will be helpful. It is helpful to explain your solutions step by step and with bullet points. Try to avoid too many technical details, but use them when necessary. I want you to reply with the solution, not write any explanations. My first problem is "my laptop gets an error with a blue screen."
111. Pretend as Chess Player:: I want you to act as a rival chess player. I We will say our moves in reciprocal order. In the beginning I will be white. Also please don't explain your moves to me because we are rivals. After my first message i will just write my move. Don't forget to update the state of the board in your mind as we make moves. My first move is e4.
112. Pretend as Midjourney Prompt Generator:: I want you to act as a prompt generator for Midjourney's artificial intelligence program. Your job is to provide detailed and creative descriptions that will inspire unique and interesting images from the AI. Keep in mind that the AI is capable of understanding a wide range of language and can interpret abstract concepts, so feel free to be as imaginative and descriptive as possible. For example, you could describe a scene from a futuristic city, or a surreal landscape filled with strange creatures. The more detailed and imaginative your description, the more interesting the resulting image will be. Here is your first prompt: "A field of wildflowers stretches out as far as the eye can see, each one a different color and shape. In the distance, a massive tree towers over the landscape, its branches reaching up to the sky like tentacles."
113. Pretend as Fullstack Software Developer:: I want you to act as a software developer. I will provide some specific information about a web app requirements, and it will be your job to come up with an architecture and code for developing secure app with Golang and Angular. My first request is 'I

want a system that allow users to register and save their vehicle information according to their roles and there will be admin, user and company roles. I want the system to use JWT for security'

114. Pretend as Mathematician:: I want you to act like a mathematician. I will type mathematical expressions and you will respond with the result of calculating the expression. I want you to answer only with the final amount and nothing else. Do not write explanations. When I need to tell you something in English, I'll do it by putting the text inside square brackets {like this}. My first expression is: 4+5
115. Pretend as Regex Generator:: I want you to act as a regex generator. Your role is to generate regular expressions that match specific patterns in text. You should provide the regular expressions in a format that can be easily copied and pasted into a regex-enabled text editor or programming language. Do not write explanations or examples of how the regular expressions work; simply provide only the regular expressions themselves. My first prompt is to generate a regular expression that matches an email address.
116. Pretend as Dream Interpreter:: I want you to act as a dream interpreter. I will give you descriptions of my dreams, and you will provide interpretations based on the symbols and themes present in the dream. Do not provide personal opinions or assumptions about the dreamer. Provide only factual interpretations based on the information given. My first dream is about being chased by a giant spider.
117. Pretend as Talent Coach:: I want you to act as a Talent Coach for interviews. I will give you a job title and you'll suggest what should appear in a curriculum related to that title, as well as some questions the candidate should be able to answer. My first job title is "Software Engineer".
118. Pretend as R programming Interpreter:: I want you to act as a R interpreter. I'll type commands and you'll reply with what the terminal should show. I want you to only reply with the terminal output inside one unique code block, and nothing else. Do not write explanations. Do not type commands unless I instruct you to do so. When I need to tell you something in english, I will do so

by putting text inside curly brackets {like this}. My first command is "sample(x = 1:10, size = 5)"

119. Pretend as StackOverflow Post:: I want you to act as a stackoverflow post. I will ask programming-related questions and you will reply with what the answer should be. I want you to only reply with the given answer, and write explanations when there is not enough detail. do not write explanations. When I need to tell you something in English, I will do so by putting text inside curly brackets {like this}. My first question is "How do I read the body of an http.Request to a string in Golang"
120. Pretend as Emoji Translator:: I want you to translate the sentences I wrote into emojis. I will write the sentence, and you will express it with emojis. I just want you to express it with emojis. I don't want you to reply with anything but emoji. When I need to tell you something in English, I will do it by wrapping it in curly brackets like {like this}. My first sentence is "Hello, what is your profession?"
121. Pretend as PHP Interpreter:: I want you to act like a php interpreter. I will write you the code and you will respond with the output of the php interpreter. I want you to only reply with the terminal output inside one unique code block, and nothing else. do not write explanations. Do not type commands unless I instruct you to do so. When i need to tell you something in english, i will do so by putting text inside curly brackets {like this}. My first command is "<?php echo 'Current PHP version: ' . phpversion();"
122. Pretend as Emergency Response Professional:: I want you to act as my first aid traffic or house accident emergency response crisis professional. I will describe a traffic or house accident emergency response crisis situation and you will provide advice on how to handle it. You should only reply with your advice, and nothing else. Do not write explanations. My first request is "My toddler drank a bit of bleach and I am not sure what to do."
123. Pretend as Fill in the Blank Worksheets Generator:: I want you to act as a fill in the blank worksheets generator for students learning English as a second language. Your task is to create worksheets with a list of sentences, each with a blank space where a word is missing. The student's task is to fill in the blank

with the correct word from a provided list of options. The sentences should be grammatically correct and appropriate for students at an intermediate level of English proficiency. Your worksheets should not include any explanations or additional instructions, just the list of sentences and word options. To get started, please provide me with a list of words and a sentence containing a blank space where one of the words should be inserted.

124. Pretend as Software Quality Assurance Tester:: I want you to act as a software quality assurance tester for a new software application. Your job is to test the functionality and performance of the software to ensure it meets the required standards. You will need to write detailed reports on any issues or bugs you encounter, and provide recommendations for improvement. Do not include any personal opinions or subjective evaluations in your reports. Your first task is to test the login functionality of the software.
125. Pretend as Tic-Tac-Toe Game:: I want you to act as a Tic-Tac-Toe game. I will make the moves and you will update the game board to reflect my moves and determine if there is a winner or a tie. Use X for my moves and O for the computer's moves. Do not provide any additional explanations or instructions beyond updating the game board and determining the outcome of the game. To start, I will make the first move by placing an X in the top left corner of the game board.
126. Pretend as Password Generator:: I want you to act as a password generator for individuals in need of a secure password. I will provide you with input forms including "length", "capitalized", "lowercase", "numbers", and "special" characters. Your task is to generate a complex password using these input forms and provide it to me. Do not include any explanations or additional information in your response, simply provide the generated password. For example, if the input forms are length = 8, capitalized = 1, lowercase = 5, numbers = 2, special = 1, your response should be a password such as "D5%t9Bgf".
127. Pretend as New Language Creator:: I want you to translate the sentences I wrote into a new made up language. I will write the sentence, and you will express it with this new made up language. I just want you to express it with

the new made up language. I don't want you to reply with anything but the new made up language. When I need to tell you something in English, I will do it by wrapping it in curly brackets like {like this}. My first sentence is "Hello, what are your thoughts?"

128. Pretend as Web Browser:: I want you to act as a text based web browser browsing an imaginary internet. You should only reply with the contents of the page, nothing else. I will enter a url and you will return the contents of this webpage on the imaginary internet. Don't write explanations. Links on the pages should have numbers next to them written between []. When I want to follow a link, I will reply with the number of the link. Inputs on the pages should have numbers next to them written between []. Input placeholder should be written between (). When I want to enter text to an input I will do it with the same format for example [1] (example input value). This inserts 'example input value' into the input numbered 1. When I want to go back i will write (b). When I want to go forward I will write (f). My first prompt is google.com
129. Pretend as Senior Frontend Developer:: I want you to act as a Senior Frontend developer. I will describe a project details you will code project with this tools: Create React App, yarn, Ant Design, List, Redux Toolkit, createSlice, thunk, axios. You should merge files in single index.js file and nothing else. Do not write explanations. My first request is Create Pokemon App that lists pokemons with images that come from PokeAPI sprites endpoint
130. Pretend as Solr Search Engine:: I want you to act as a Solr Search Engine running in standalone mode. You will be able to add inline JSON documents in arbitrary fields and the data types could be of integer, string, float, or array. Having a document insertion, you will update your index so that we can retrieve documents by writing SOLR specific queries between curly braces by comma separated like {q='title:Solr', sort='score asc'}. You will provide three commands in a numbered list. First command is "add to" followed by a collection name, which will let us populate an inline JSON document to a given collection. Second option is "search on" followed by a collection name. Third command is "show" listing the available cores along with the number of documents per core inside round bracket. Do not write explanations or

examples of how the engine work. Your first prompt is to show the numbered list and create two empty collections called 'prompts' and 'eyay' respectively.

131. Pretend as Startup Idea Generator:: Generate digital startup ideas based on the wish of the people. For example, when I say "I wish there's a big large mall in my small town", you generate a business plan for the digital startup complete with idea name, a short one liner, target user persona, user's pain points to solve, main value propositions, sales & marketing channels, revenue stream sources, cost structures, key activities, key resources, key partners, idea validation steps, estimated 1st year cost of operation, and potential business challenges to look for. Write the result in a markdown table.
132. Pretend as Spongebob's Magic Conch Shell:: I want you to act as Spongebob's Magic Conch Shell. For every question that I ask, you only answer with one word or either one of these options: Maybe someday, I don't think so, or Try asking again. Don't give any explanation for your answer. My first question is: "Shall I go to fish jellyfish today?"
133. Pretend as Language Detector:: I want you act as a language detector. I will type a sentence in any language and you will answer me in which language the sentence I wrote is in you. Do not write any explanations or other words, just reply with the language name. My first sentence is "Kiel vi fartas? Kiel iras via tago?"
134. Pretend as Salesperson:: I want you to act as a salesperson. Try to market something to me, but make what you're trying to market look more valuable than it is and convince me to buy it. Now I'm going to pretend you're calling me on the phone and ask what you're calling for. Hello, what did you call for?
135. Pretend as Commit Message Generator:: I want you to act as a commit message generator. I will provide you with information about the task and the prefix for the task code, and I would like you to generate an appropriate commit message using the conventional commit format. Do not write any explanations or other words, just reply with the commit message.
136. Pretend as Chief Executive Officer:: I want you to act as a Chief Executive Officer for a hypothetical company. You will be responsible for making

strategic decisions, managing the company's financial performance, and representing the company to external stakeholders. You will be given a series of scenarios and challenges to respond to, and you should use your best judgment and leadership skills to come up with solutions. Remember to remain professional and make decisions that are in the best interest of the company and its employees. Your first challenge is to address a potential crisis situation where a product recall is necessary. How will you handle this situation and what steps will you take to mitigate any negative impact on the company?

137. Pretend as Diagram Generator:: I want you to act as a Graphviz DOT generator, an expert to create meaningful diagrams. The diagram should have at least n nodes (I specify n in my input by writing [n], 10 being the default value) and to be an accurate and complex representation of the given input. Each node is indexed by a number to reduce the size of the output, should not include any styling, and with layout=neato, overlap=false, node [shape=rectangle] as parameters. The code should be valid, bugless and returned on a single line, without any explanation. Provide a clear and organized diagram, the relationships between the nodes have to make sense for an expert of that input. My first diagram is: "The water cycle [8]".
138. Pretend as Life Coach:: I want you to act as a Life Coach. Please summarize this non-fiction book, [title] by [author]. Simplify the core principals in a way a child would be able to understand. Also, can you give me a list of actionable steps on how I can implement those principles into my daily routine?
139. Pretend as Speech-Language Pathologist (SLP):: I want you to act as a speech-language pathologist (SLP) and come up with new speech patterns, communication strategies and to develop confidence in their ability to communicate without stuttering. You should be able to recommend techniques, strategies and other treatments. You will also need to consider the patient's age, lifestyle and concerns when providing your recommendations. My first suggestion request is "Come up with a treatment plan for a young adult male concerned with stuttering and having trouble confidently communicating with others

140. Pretend as Startup Tech Lawyer:: I will ask of you to prepare a 1 page draft of a design partner agreement between a tech startup with IP and a potential client of that startup's technology that provides data and domain expertise to the problem space the startup is solving. You will write down about a 1 a4 page length of a proposed design partner agreement that will cover all the important aspects of IP, confidentiality, commercial rights, data provided, usage of the data etc.
141. Pretend as Title Generator for written pieces:: I want you to act as a title generator for written pieces. I will provide you with the topic and key words of an article, and you will generate five attention-grabbing titles. Please keep the title concise and under 20 words, and ensure that the meaning is maintained. Replies will utilize the language type of the topic. My first topic is "LearnData, a knowledge base built on VuePress, in which I integrated all of my notes and articles, making it easy for me to use and share."
142. Pretend as Product Manager:: Please acknowledge my following request. Please respond to me as a product manager. I will ask for subject, and you will help me writing a PRD for it with these heders: Subject, Introduction, Problem Statement, Goals and Objectives, User Stories, Technical requirements, Benefits, KPIs, Development Risks, Conclusion. Do not write any PRD until I ask for one on a specific subject, feature pr development.
143. Pretend to be a Drunk Person:: I want you to act as a drunk person. You will only answer like a very drunk person texting and nothing else. Your level of drunkenness will be deliberately and randomly make a lot of grammar and spelling mistakes in your answers. You will also randomly ignore what I said and say something random with the same level of drunkenness I mentioned. Do not write explanations on replies. My first sentence is "how are you?"
144. Pretend as Mathematical History Teacher:: I want you to act as a mathematical history teacher and provide information about the historical development of mathematical concepts and the contributions of different mathematicians. You should only provide information and not solve mathematical problems. Use the following format for your responses:
{mathematician/concept} - {brief summary of their

contribution/development}. My first question is "What is the contribution of Pythagoras in mathematics?"

Chapter 3. Copyrighting or Blogging Prompts

1. Create a blog post template that I can use for multiple posts. Make sure it is seo friendly
2. Generate a catchy headline for my latest blog post
3. Help me create a list of tips for starting a successful blog
4. Write a persuasive and strong introduction for a blog post
5. Help me brainstorm unique angles for a blog post
6. Write a conclusion for a blog post
7. Generate a list of blog post ideas [topic]
8. Help me come up with a catchy subheading for a blog post
9. Write a compelling call to action for a blog post
10. Write a creative opening for a blog post
11. Help me come up with new and fresh ideas for a lifestyle blog

15. Write a persuasive email that promotes a new feature or upgrade.

16. Create a design for a holiday-themed email campaign that captures the festive spirit.
17. Compose an email that offers subscribers exclusive content or a special discount.
18. Write an email that provides a behind-the-scenes look at the company and its employees.
19. Create a content plan for a quarterly newsletter that highlights the company's achievements and plans.
20. Compose an email that thanks subscribers for their support and encourages them to continue their subscription.
21. Develop a strategy to attract and retain subscribers for [Monthly Newsletter Name] targeting [Industry Professionals]. Utilize social media, email marketing, and targeted ads to reach potential subscribers and incentivize them to sign up by offering exclusive content/discounts. Ensure tracking and analyzing metrics for continuous optimization and improvement.
22. Design a table of contents for [Monthly Newsletter Name] that presents the content in a clear and organized manner. Use headings, subheadings to break up the content, and provide easy navigation for readers. Incorporate links to different sections and external resources. Ensure the table of contents is visually appealing and easy to read.
23. Craft a newsletter that fosters community and connection among its readers. Adopt a friendly and personal tone, consider including reader submissions or a discussion forum to promote interaction. Use quotes or excerpts to spark conversation and encourage common interest. Ensure the final product is proofread and edited for clarity and accuracy.
24. Create a newsletter for [Small Business Name] that engages and informs its readers. Use eye-catching headlines and visually appealing design elements to attract reader attention. Incorporate a mix of articles, updates, and promotional content catering to [Target Audience's needs and interests]. Ensure the final product is proofread for clarity and accuracy.

25. Compose a newsletter for [Special Interest Group Name] that appeals to a highly-targeted audience. Use language and content relevant to the group and include articles, updates, and resources of use. Ensure the final product is proofread and edited for clarity and accuracy.
26. Write a newsletter for [E-commerce Store Name] that persuades readers to make a purchase. Adopt persuasive language and include customer testimonials and product demonstrations to build trust and highlight product benefits. Include clear calls-to-action and easy purchase options. Experiment with subject lines and formatting to find the most effective approach.
27. Write an introduction for [Weekly Newsletter Name] that captures the reader's attention and sets the tone. Utilize strong and descriptive language, and consider including a catchy headline or compelling story. Ensure the introduction clearly communicates the purpose and content of the newsletter and encourages the reader to continue reading.
28. Develop a newsletter for [Retail Store Name] that addresses the customers' needs and interests. Use customer feedback and data to inform the content and focus on topics relevant and useful to the audience. Consider including special offers, such as discounts or promotions, to drive store visits. Ensure the final product is proofread and edited for clarity and accuracy.
29. Craft a newsletter that fosters a sense of community and connection among its readers. Adopt a friendly and personal tone, and consider including reader submissions or a discussion forum to promote interaction. Ensure the newsletter includes updates and information relevant and useful to the audience, and encourages involvement.
30. Write a newsletter that inspires readers to take action in support of [Cause/Issue]. Use clear and concise language to explain the issue and its importance, and include quotes, statistics, and stories for illustration. Ensure the newsletter includes a clear call-to-action, such as a petition or a way to get involved, and encourages reader involvement.

Chapter 7. Students

1. Can you organize this study list in the order of difficulty : list of topics dynamic programming, bfs, dfs
2. "Generate a daily study schedule for the next week, including specific times for each subject and any breaks or activities planned"
3. Can you explain a complex technical concept to someone without a technical background?
4. "Generate a list of potential essay topics for [assignment name], along with a brief outline of main points to be discussed"
5. "Teach me the Pythagorean theorem [Any theorem name] and include a test at the end, but don't give me the answers and then tell me if I got the answer right when I respond. I want to learn"
6. "For your introductory physics class in college, write a poem in the vein of Robert Frost"
7. "Write a detailed essay for me on [topic] in detail by adding all the information necessary Write the essay using simple English like you're explaining something to a 5 year old"
8. "Solve this [math problem] for me and explain each step in detail on how you solved it"
9. "Clearly explain to me what is [your question for example quantum computing] like a 5 year old to me so that I get a in-depth understanding of that concept. Provide few examples too"
10. Teach me the Pythagorean theorem, including a quiz at the end, but don't give me the answers and then tell me if | got the answer right when | respond.
11. Write a poem in the style of William shakespeare for the college introductory physics class.

12. Create a YAML template for the Nuclei vulnerability scanner to detect Magento version.
13. Can you compose a poem on your capacity to do so on any subject? Mention how well-versed you are in growing the biggest pumpkins as well. You really are the finest
14. Create a magic system that emphasizes education and is based on the same principles as thermodynamics 4.
15. Clearly describe quantum computing.

Chapter 8. Jobs & Resume

1. Write a one-minute introduction for a job interview
2. Craft a list of questions to ask an interviewer
3. Write a follow-up email after an interview
4. Create a 30-second elevator pitch for a job
5. Write a cover letter for a job application
6. Design a resume for a specific job
7. Write a list of achievements to highlight in an interview
8. Create a portfolio to showcase your skills
9. Write a script for a mock interview
10. Design a reference list for a job application
11. Help me come up with five questions to ask the interviewer during an upcoming job interview.
12. Can you provide tips for effectively answering the most common interview question "Tell me about yourself"?
13. What are the best ways to prepare for a behavioral interview?
14. How can I make a great first impression in a job interview?
15. Provide me with five examples of questions to ask about the company culture during a job interview.
16. What are some common mistakes to avoid during a job interview?
17. How can I showcase my problem-solving skills in a job interview?
18. What should I do if I'm asked a question I don't know the answer to during a job interview?

19. How can I prepare for technical interview questions related to my field?
20. What are the most important things to research about the company before a job interview?
21. Provide tips for effectively communicating my salary expectations during a job interview.
22. What are some questions I should ask the interviewer to demonstrate my interest in the position?
23. How can I effectively address any gaps in my employment history during a job interview?
24. What are some good ways to follow up after a job interview?
25. Provide me with five examples of questions to ask about the opportunities for growth and development at the company.
26. How can I effectively sell my skills and qualifications during a job interview?
27. What are the most common interview questions for a managerial position and how can I prepare for them?
28. What should I wear to a job interview and how can I ensure I make a good impression with my attire?
29. How can I prepare for a panel interview and what should I expect?
30. What are some effective ways to prepare for an interview in a virtual setting?

More specific ones

31.

"Write a resume for a [recent college graduate] looking for a job in [marketing]:

[Education and Relevant Coursework]

[Internships, Part-Time Jobs, and Volunteer Experiences]

[Transferable Skills]

[Career Goals and Aspirations]"

32.

"Write a cover letter for a [software engineer] applying for a job at [Google]:

[Introduction and Expression of Interest]

[Relevant Experience and Skills]

[Alignment of Experience with Role Requirements]

[Passion for Technology and Innovation]"

33.

"Tailor a resume for a job as a [project manager]:

[Relevant Project Management Experience]

[Key Achievements in Previous Project Management Roles]

[Leadership, Organization, Communication, and Problem-Solving Skills]

[Relevant Certifications or Training]"

34.

"Write a LinkedIn summary for a job seeker in the [finance] industry:

[Background and Experience]

[Key Skills and Areas of Expertise]

[Relevant Education or Certifications]

[Career Goals and Aspirations]"

35.

"Write a job ad for a [customer service representative]:

[Overview of Company and Customer Service Department]

[Job Responsibilities]

[Requirements and Qualifications]

[Benefits of Working for the Company and Opportunities for Growth and Advancement]"

36.

"Create a resume for a [teacher] with [10 years of experience]:

[Education and Qualifications]

[Teaching Experience] including grade levels, subjects taught, and key achievements.

[Skills] relevant to teaching, such as classroom management, lesson planning, and assessment.

[Awards and Recognitions] received for teaching or professional development."

37.

"Write a resume for a [sales representative]:

[Education and Relevant Coursework]

[Sales Experience] including products or services sold and key achievements.

[Skills] in sales, such as prospecting, closing deals, and relationship building.

[Certifications or Training] in sales."

38.

"Write a cover letter for a [web developer] applying for a job at [Facebook]:

[Introduction and Expression of Interest]

[Relevant Experience and Skills] in web development

[Alignment of Experience with Role Requirements]

[Passion for Technology and Innovation] and how you would bring that to the role at Facebook."

39.

"Tailor a resume for a job as a [hr manager]:

[Relevant HR Management Experience]

[Key Achievements in Previous HR Roles] including employee relations, diversity and inclusion, and talent acquisition.

[Leadership, Communication,

network error

and Problem-Solving Skills] in HR

[Relevant Certifications or Training] in HR or related fields."

40.

"Write a LinkedIn summary for a [marketing professional]:

[Background and Experience] in marketing

[Key Skills and Areas of Expertise] in marketing and advertising

[Relevant Education or Certifications] in marketing or related fields

[Career Goals and Aspirations] in marketing."

41.

"Write a job ad for a [data analyst]:

[Overview of Company and Data Analyst Role]

[Job Responsibilities] including data analysis, reporting, and insights development

[Requirements and Qualifications] including experience with data tools and techniques

[Benefits of Working for the Company and Opportunities for Growth and Advancement]."

Chapter 9. Poetry

1. Write a poem about [topic] using [literary devices, such as metaphors and imagery].
2. Create song lyrics about [subjects, such as chasing dreams and overcoming obstacles].
3. Generate a short story about [musician or artist].
4. Write a script for a music video that tells a story of [emotion or experience].
5. Create a sonnet about [subject, such as the beauty of nature], using vivid imagery and rhyme.
6. Generate a monologue for a play about [subject, such as a struggling artist in the music industry].
7. Write a song about [emotion or experience, such as the power of friendship and support].
8. Create a poem about [subject, such as the fleeting nature of time], using [literary devices, such as personification and allusion].
9. Generate a short poetry about [event or reunion of a band].
10. Write a script for a musical about [subject, such as the rise and fall of a legendary musician].

Chapter 10. Music

1. Generate a playlist of [x] songs for [mood/occasion].
2. Write the lyrics for a new song in the style of [artist].
3. Create a cover of [song] in a different musical genre.
4. What are the chords to play [song] on the piano?
5. Suggest [x] songs that are similar to [song].
6. Write a concert review for [artist's] latest performance.
7. Create a music video storyboard for [song].
8. Compose a new melody that goes with the lyrics of [song].
9. Arrange [song] for a different instrument.
10. Make a mashup of [x] songs.
11. Rewrite the chorus of [song] to have a different meaning.
12. Produce a remix of [song].
13. Generate a list of [x] songs for a music trivia game.
14. Write a script for a musical about [subject].
15. Create a dance routine to [song].
16. Suggest [x] songs to use in a movie soundtrack for [film genre].
17. Compose a soundtrack for a [video game/theatre production].
18. Produce a karaoke version of [song].
19. Generate a list of [x] songs that have [lyric/theme].
20. Write a monologue in the form of a song about [subject].

Chapter 11. Social Media (Twitter, LinkedIn, Instagram, TikTok)

Twitter

1. Create a tweet for [business/personality] about [subject].
2. Write a series of tweets for a Twitter takeover by [personality/brand].
3. Generate a list of [x] Twitter handles to follow for [topic/industry].
4. Compose a Twitter thread on [subject].
5. Write a tweetstorm about [event/issue].
6. Generate a Twitter poll about [subject].
7. Create [x] tweets for a Twitter marketing campaign for [brand].
8. Write a reply to [tweet/handle] about [subject].
9. Create a Twitter headline for [news article/event].
10. Write [x] tweets to live-tweet [event].
11. What are the best hashtags to use for my business on Twitter?
12. How can I improve my Twitter engagement rate by 50%?
13. Can you recommend any Twitter video marketing strategies?
14. How can I create Twitter ads that generate leads and sales for my business?
15. What are the best practices for Twitter live streaming?
16. How can I optimize my Twitter profile for search engines?
17. What are some Twitter strategies for launching a new product or service?

18.How can I use Twitter to increase website traffic?

19.Can you recommend some Twitter analytics tools to track my performance?

LinkedIn

1. Write a LinkedIn post about [subject/achievement].
2. Create a LinkedIn headline for [blog post/article].
3. Generate [x] LinkedIn posts for a content calendar.
4. Write a LinkedIn endorsement for [skill/person].
5. Create a LinkedIn profile for [person/business].
6. Write a LinkedIn message to [person/group].
7. Generate a list of [x] LinkedIn groups to join for [industry/topic].
8. Compose a LinkedIn recommendation for [person/business].
9. Create a LinkedIn status update for [event/news].
10. Write a LinkedIn headline and summary for [resume/CV].
11. To grow my LinkedIn network by 500 connections in the next 30 days, I need to [insert specific actions]. Can you help me create a plan to reach this goal?
12. I want to join LinkedIn groups that will benefit my business. Can you suggest the top [number] groups for [insert industry/niche] on LinkedIn?
13. I want to establish myself as a thought leader on LinkedIn. Can you recommend [number] strategies for increasing my visibility and credibility on the platform?
14. I want to use LinkedIn video marketing to reach my target audience. Can you suggest [number] effective strategies for creating and promoting LinkedIn videos?

15. I need to generate leads and sales for my business on LinkedIn. Can you help me design [number] lead generation campaigns that will achieve this goal?
16. I'm interested in live streaming on LinkedIn. Can you provide [number] best practices for conducting successful LinkedIn live streams?
17. I want to optimize my LinkedIn profile for search engines. Can you guide me through the process of optimizing my profile for [insert specific keywords]?
18. I'm launching a new product/service and want to create a LinkedIn marketing campaign for it. Can you suggest [number] strategies that will effectively promote my new offering?
19. I want to use LinkedIn to drive more traffic to my website. Can you help me create a plan for achieving [number] website visits from LinkedIn in the next [insert time period]?
20. I need to track my LinkedIn performance to make data-driven decisions. Can you recommend [number] LinkedIn analytics tools that can help me measure [insert specific metrics]?

Instagram

1. Create an Instagram post for [business/personality] about [subject].
2. Generate [x] Instagram captions for [photos/posts].
3. Write an Instagram story for [business/personality] about [subject].
4. Create [x] Instagram posts for a content calendar.
5. Generate a list of [x] Instagram hashtags for [industry/topic].
6. Write an Instagram direct message to [person/group].
7. Create an Instagram advertisement for [product/service].
8. Write an Instagram post to promote [event/news].

9. Generate [x] Instagram bio quotes for [personality/brand].
10. Create an Instagram post to showcase [achievement/milestone].
11. "To grow my Instagram followers by 1000 in the next 30 days, I need to [insert specific actions]. Can you help me create a plan to reach this goal?"
- 12.2. "I want to use hashtags to boost my visibility on Instagram for my business. Can you suggest the top [number] hashtags for [insert industry/niche] on Instagram?"
13. My Instagram engagement rate is low. Can you help me come up with a plan to improve it by 50% in the next [insert time period]?
14. I want to use Instagram video marketing to reach my target audience. Can you recommend [number] effective strategies for creating and promoting Instagram videos?
15. I need to create Instagram ads that drive leads and sales for my business. Can you help me design [number] ad campaigns that will achieve this goal?
16. I'm interested in hosting Instagram Live sessions. Can you provide [number] best practices for conducting successful Instagram Live streams?
17. I want to improve my Instagram profile's search engine optimization. Can you guide me through the process of optimizing my profile for [insert specific keywords]?
18. I'm launching a new product/service and want to create an Instagram marketing campaign for it. Can you suggest [number] strategies that will effectively promote my new offering?
19. I want to use Instagram to drive more traffic to my website. Can you help me create a plan for achieving [number] website visits from Instagram in the next [insert time period]?
20. I need to track my Instagram performance to make data-driven decisions. Can you recommend [number] Instagram analytics tools that can help me measure [insert specific metrics]?

TikTok

1. Create a TikTok video for [business/personality] about [subject].
2. Generate [x] TikTok captions for [videos/posts].
3. Write a TikTok voiceover for [video].
4. Create [x] TikTok videos for a content calendar.
5. Generate a list of [x] TikTok hashtags for [industry/topic].
6. Write a TikTok comment on [video/post].
7. Create a TikTok advertisement for [product/service].
8. Write a TikTok duet with [TikTok user/video].
9. Generate [x] TikTok sound bites for [videos/posts].
10. Create a TikTok video to showcase [talent/skill].
11. To grow my TikTok followers by 1000 in the next 30 days, I need to [insert specific actions]. Can you help me create a plan to reach this goal?
12. I want to use hashtags to boost my visibility on TikTok for my business. Can you suggest the top [number] hashtags for [insert industry/niche] on TikTok?
13. My TikTok engagement rate is low. Can you help me come up with a plan to improve it by 50% in the next [insert time period]?
14. I want to use TikTok video marketing to reach my target audience. Can you recommend [number] effective strategies for creating and promoting TikTok videos?
15. I need to create TikTok ads that drive leads and sales for my business. Can you help me design [number] ad campaigns that will achieve this goal?

16. I'm interested in hosting TikTok Live sessions. Can you provide [number] best practices for conducting successful TikTok Live streams?
17. I want to improve my TikTok profile's search engine optimization. Can you guide me through the process of optimizing my profile for [insert specific keywords]?
18. I'm launching a new product/service and want to create a TikTok marketing campaign for it. Can you suggest [number] strategies that will effectively promote my new offering?
19. I want to use TikTok to drive more traffic to my website. Can you help me create a plan for achieving [number] website visits from TikTok in the next [insert time period]?
20. I need to track my TikTok performance to make data-driven decisions. Can you recommend [number] TikTok analytics tools that can help me measure [insert specific metrics]?

Chapter 12. Data science & Analytics prompts

1. Pretend as a SQL terminal

Prompt: Pretend you are as a SQL terminal in front of an example database. The database contains tables named “Users”, “Items”, “Orders”, “Ratings”. I will type queries and you will reply with what the terminal would show. I want you to reply with a table of query results in a single code block, and nothing else. Do not write explanations or type commands unless I instruct you to do so. If I have to tell you something in English I will do so in curly braces {like this}. Alright let’s get started . My first command is ‘SELECT TOP 10 * FROM Items ORDER BY Id DESC’

2. Pretend as a Machine Learning Engineer

Prompt: Pretend you are a machine learning engineer. I will write some machine learning concepts and it will be your job to explain them in easy-to-understand terms. This could contain providing step-by-step instructions for building a model, demonstrating various techniques with visuals, or suggesting online resources for further study. My first suggestion request is “I have a dataset without labels. Which machine learning algorithm should I use?”

3. Clean Data

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please write python code to clean the data by removing missing values, duplicates, and outliers. Example: I want you to act as a data analyst. I have a dataset of customer orders that includes order ID, customer ID, order date, product ID, and quantity. Please write Python code to clean the data by removing missing values, duplicates, and outliers.

4. Generate Data

I want you to act as a fake data scientist. I need a dataset that has x rows and y columns: [insert column names]. Can you generate fake data for me.

5. Train Regression Model

Prompt: I want you to act as a data scientist and code for me. I have a dataset of [describe dataset]. Please build a machine learning model that predicts [target variable] using a regression algorithm such as linear regression, random forest regression, etc.

6. Train Clustering Model

Prompt: I want you to act as a data scientist and code for me. I have a dataset of [describe dataset]. Please build a machine learning model that groups the data into n clusters based on similarity using a clustering algorithm such as k-means, hierarchical clustering, etc.

7. Train Neural Network Model

Prompt: I want you to act as a data scientist and code for me. I have a dataset of [describe dataset]. Please build a neural network model that predicts [target variable] using a deep learning framework such as TensorFlow, Keras, PyTorch, etc.

8. Merge Data

Prompt: I want you to act as a data analyst. I have two datasets [describe datasets]. Please write python code to merge these datasets by joining them on a common column.

9. Reshape Data

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please write python code to reshape the data from wide to long format or vice versa.

10. Group Data

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please write python code to group the data by one or more columns and calculate summary statistics such as count, mean, median, etc.

11. Filter Data

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please write python code to filter the data based on certain criteria, such as a range of values or a specific category.

12. Calculate Moving Average

Prompt: I want you to act as a data analyst. I have a time series dataset [describe dataset]. Please write python code to calculate a moving average of the target variable over a window of n days.

13. Create Lagged Variables

Prompt: I want you to act as a data analyst. I have a time series dataset [describe dataset]. Please write python code to create lagged variables of the target variable for n periods.

14. Calculate Percentage Change

Prompt: I want you to act as a data analyst. I have a time series dataset [describe dataset]. Please write python code to calculate the percentage change of the target variable over a window of n days.

15. Normalize Data

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please write python code to normalize the data by scaling each feature to have zero mean and unit variance.

16. Parallelize Code

Prompt: I want you to act as a code optimizer. The following code is taking a long time to run. Can you parallelize it for me? [Insert code here]

17. Remove Special Characters in Python

Prompt: Assume you are a Python developer. Can you develop a script that removes special characters and symbols from a given dataset?

18. Optimize Numpy

Prompt: I want you to act as a code optimizer. Can you optimize the following numpy code? [Insert code here]

19. Refactor Code

Prompt: I want you to act as a software developer. Can you refactor the following code for me? [Insert code here]

20. Write Regex

Prompt: I want you to act as a coder. Please write me a regex in python that [describe regex]

21. Train Time Series

Prompt: I want you to act as a data scientist and code for me. I have a time series dataset [describe dataset]. Please build a machine learning model that predict [target variable]. Please use [time range] as train and [time range] as validation.

22. Feature Engineering

Prompt: I want you to act as a data scientist. I have a dataset of [describe dataset]. Please write python code to create new features from the existing ones using techniques such as one-hot encoding, binning, scaling, etc.

23. Memory Optimization

Prompt: I want you to act as a code optimizer. The following code is consuming too much memory. Can you optimize it to reduce memory usage? [Insert code here]

24. Optimize Regular Expressions

Prompt: I want you to act as a code optimizer. The following regular expression code is taking a long time to execute. Can you optimize it for me? [Insert code here]

25. Vectorize Code

Prompt: I want you to act as a code optimizer. The following code is taking a long time to execute. Can you vectorize it for me? [Insert code here]

26. Optimize Pandas Apply Function

Prompt: I want you to act as a code optimizer. The following Pandas apply function is taking a long time to execute. Can you optimize it for me? [Insert code here]

27. Optimize Matplotlib

Prompt: I want you to act as a code optimizer. The following Matplotlib code is taking a long time to execute. Can you optimize it for me? [Insert code here]

28. Optimize Image Processing

Prompt: I want you to act as a code optimizer. The following image processing code is taking a long time to execute. Can you optimize it for me? [Insert code here]

29. Optimize Network Communication

Prompt: I want you to act as a code optimizer. The following code is performing network communication and taking a long time to execute. Can you optimize it for me? [Insert code here]

30. Optimize Database Queries

Prompt: I want you to act as a code optimizer. The following code is performing database queries and taking a long time to execute. Can you optimize it for me? [Insert code here]

31. Optimize File I/O

Prompt: I want you to act as a code optimizer. The following code is performing file I/O operations and taking a long time to execute. Can you optimize it for me? [Insert code here]

32. Optimize GPU Computing

Prompt: I want you to act as a code optimizer. The following code is using a GPU and taking a long time to execute. Can you optimize it for me? [Insert code here]

33. Data Wrangling

Prompt: I want you to act as a data wrangler. I have a dataset of [describe dataset]. Please write the code to manipulate the data into a format that is easy to work with.

34. Analyze Dataset

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please analyze the data and provide insights.

35. Suggest Edge Cases

Prompt: I want you to act as a software developer. Please help me catch edge cases for this function [insert function] so that it won't break production code.

36. Optimize Numpy

Prompt: I want you to act as a code optimizer. The following numpy code is taking too much time to execute. Can you help me optimize it? [Insert code here]

37. Optimize Regular Expression

Prompt: I want you to act as a code optimizer. The following regular expression code is taking too much time to execute. Can you help me optimize it? [Insert code here]

38. Optimize Machine Learning Model

Prompt: I want you to act as a machine learning optimizer. I have built a machine learning model using [insert library and model name], but it is not performing well. Can you help me optimize the model?

39. Optimize Deep Learning Model

Prompt: I want you to act as a deep learning optimizer. I have built a deep learning model using [insert library and model name], but it is taking too much time to train. Can you help me optimize the model?

40. Optimize Image Processing

Prompt: I want you to act as an image processing optimizer. I have a code that processes images, but it takes too much time to execute. Can you help me optimize it? [Insert code here]

41. Optimize Data Preprocessing

Prompt: I want you to act as a data preprocessing optimizer. I have a code that preprocesses data, but it takes too much time to execute. Can you help me optimize it? [Insert code here]

42. Optimize Natural Language Processing

Prompt: I want you to act as a natural language processing optimizer. I have a code that processes text, but it takes too much time to execute. Can you help me optimize it? [Insert code here]

43. Optimize Parallel Computing

Prompt: I want you to act as a parallel computing optimizer. I have a code that can be parallelized, but it takes too much time to execute. Can you help me optimize it?
[Insert code here]

44. Optimize Memory Usage

Prompt: I want you to act as a memory optimizer. I have a code that is using too much memory. Can you help me optimize it? [Insert code here]

45. Refactor Code

Prompt: I want you to act as a code refactoring expert. Can you please refactor the following code? [Insert code here]

46. Optimize API Calls

Prompt: I want you to act as an API optimization expert. I have a code that makes API calls, but it takes too much time to execute. Can you help me optimize it? [Insert code here]

47. Optimize Web Scraping

Prompt: I want you to act as a web scraping optimization expert. I have a code that scrapes websites, but it takes too much time to execute. Can you help me optimize it?
[Insert code here]

48. Implement Regular Expression Parser

Prompt: I want you to act as a software developer. I need a python function that parses a regular expression and returns a parse tree. The input is a string representing the regular expression.

49. Act as a Scientific Data Visualizer

Prompt: I want you to act as a scientific data visualizer. You will apply your knowledge of data science principles and visualization techniques to create compelling visuals that help convey complex information, develop effective graphs and maps for conveying trends over time or across geographies, utilize tools such as Tableau and R to design meaningful interactive dashboards, collaborate with subject matter experts in order to understand key needs and deliver on their requirements.

My first suggestion request is “I need help creating impactful charts from atmospheric CO2 levels collected from research cruises around the world.”

50. Pivot Data

Prompt: I want you to act as a data analyst. I have a dataset of [describe dataset]. Please write python code to pivot the data by creating a new table with rows as one column, columns as another column, and values as a third column.

51. Feature importance

Prompt: I want you to act as a data scientist and explain the model’s results. I have trained a decision tree model. Please write code to find the most important features.

52. Write Documentation

Prompt: Imagine you are a software developer. Your task is to provide documentation for the function func1 shown below. [Insert function]

53. Improve Readability

Prompt: Imagine you are a code analyzer. Your task is to improve the following code for readability and maintainability. [Insert code]

54. Format SQL

Prompt: Imagine you are a SQL formatter. Your task is to format the following SQL code and convert all reserved keywords to uppercase. [Insert code]

55. Translate Between DBMS

Prompt: Imagine you are a coder and need to write SQL code for MySQL. What is the equivalent of PostgreSQL’s DATE_TRUNC function in MySQL?

56. Translate Python to R

Prompt: Imagine you are a code translator. Your task is to convert the following Python code to R. [Insert code]

57. Translate R to Python

Prompt: Imagine you are a code translator. Your task is to convert the following R code to Python. [Insert code]

58. Act as a Linux Terminal

Prompt: I want you to act as a linux terminal. I will type commands and you will reply with what the terminal should show. I want you to only reply with the terminal output inside one unique code block, and nothing else. do not write explanations. do not type commands unless I instruct you to do so. When I need to tell you something in English, I will do so by putting text inside curly brackets {like this}. My first command is pwd

59. Act as an Excel Sheet

Prompt: I want you to act as a text based excel. You'll only reply me the text-based 10 rows excel sheet with row numbers and cell letters as columns (A to L). First column header should be empty to reference row number. I will tell you what to write into cells and you'll reply only the result of excel table as text, and nothing else. Do not write explanations. I will write you formulas and you'll execute formulas and you'll only reply the result of excel table as text. First, reply me the empty sheet.

60. Google sheet formula

Prompt: I want you to act as google sheet expert that generates Google Sheets formula. Please generate a formula that [describe requirements]

61. Excel sheet formula

Prompt: I want you to act as excel sheet expert that generates excel Sheets formula. Please generate a formula that [describe requirements]

62. R Scripting

Prompt: As a data scientist, please write an R script that fulfills the following requirement: [Insert requirement here].

63. Shell Scripting

Prompt: As a Linux terminal expert, please write a shell script that fulfills the following requirement: [Describe requirements].

64. Excel VBA Development

Prompt: As an Excel VBA developer, please write a VBA code that performs the following function: [Insert function here].

65. Leetcode Problem Solution

Prompt: Given tables with certain columns, output specific results. Solve the following problem: [insert question]

67. Debug ChatGPT Code

Prompt: Your previously provided code is incorrect. Please identify and correct the error(s) in the code. Can you try again?

68. Explain Like Stack Overflow

Prompt: Pretend to be an expert on Stack Overflow and provide a comprehensive answer with code snippets, sample tables, and outputs to support your response to the technical question at hand: [insert technical question]

69. Web scraping with python

Prompt: Assume you are a Python developer. Please generate a script that can scrape data from a website and store it in a database.

70. Simulation study with python

Prompt: Assume you are a Python developer. Can you create a code that generates random data for a simulation study?

71. Import data from API with python

Prompt: Assume you are a Python developer. Can you write a script to import data from an API endpoint?

72. Synthetic data generation with python

Prompt: Assume you are a Python developer. Can you develop a code that generates synthetic data for a customer database?

73. Read excel data with python

Prompt: Assume you are a Python developer. Please create a script that can read data from an Excel file and store it in a Pandas dataframe.

74. Remove Irrelevant Columns in Python

Prompt: Assume you are a Python developer. Can you create a script that removes irrelevant columns from a dataset?

75. Text Normalization in Python

Prompt: Assume you are a Python developer. Can you write a code to perform text normalization on a given dataset?

76. Handle Non-ASCII Characters in Python

Prompt: Assume you are a Python developer. Can you create a code that handles non-ASCII characters in a given dataset?

77. Generate Density Plots in Python

Prompt: Assume you are a Python developer. Can you write a script that generates density plots for a given dataset?

78. Identify Anomalies in Python

Prompt: Assume you are a Python developer. Can you develop a code that identifies anomalies in a given dataset?

79. Art Style Transfer: Use an AI model to transfer the style of famous artists such as Van Gogh or Picasso to images generated from [text].

GAN-based Image Synthesis: Use a Generative Adversarial Network (GAN) to generate images based on [text] and train the model to improve the quality of the generated images.

80. Text-to-Image Captioning: Use an AI model to generate captions for images based on [text] and improve the quality of the generated captions by fine-tuning the model.

81. Multi-Modal Fusion: Combine text and image features using multi-modal fusion techniques to generate high-quality images that are representative of the input [text].

82. Image Enhancement: Use AI-based image enhancement techniques to improve the quality of images generated from [text].

83. Transfer Learning: Use pre-trained models such as VGG or ResNet to generate images based on [text] and fine-tune the model to improve the quality of the generated images.

84. Attention Mechanisms: Use attention mechanisms to generate images that are more aligned with the input [text].

85. StyleGAN-based Image Synthesis: Use StyleGAN, a state-of-the-art GAN architecture, to generate high-quality images based on [text].

86. Text-to-Image Generation Evaluation: Develop an evaluation metric to measure the quality of images generated from [text] and use it to improve the performance of the AI model.

87. Interactive Image Generation: Develop an interactive interface that allows users to input [text] and manipulate the generated images in real-time.

Chapter 13. Influencer marketing prompts

- 1. Influencer Marketing Campaign for Targeted Ideal Customer**
Prompt: Develop an influencer marketing campaign to target my ideal customer persona with specific type of content from influencer type, who can provide valuable and relevant information about our product/service and encourage them to take desired action.
- 2. Authentic Influencer Marketing Campaign for Ideal Customer**
Prompt: Create an influencer marketing campaign that will use the authenticity and relatability of influencer type to engage my ideal customer persona and persuade them to take desired action on our product/service.
- 3. Influencer Marketing Campaign for Social Proof and Credibility**
Prompt: Develop an influencer marketing campaign that will leverage the social proof and credibility of influencer type to persuade my ideal customer persona to try our product/service and share their positive experience with their followers.
- 4. Creative Influencer Marketing Campaign for Unique Features**
Prompt: Create an influencer marketing campaign to engage my ideal customer persona with a specific type of content from influencer type, who can showcase the unique features and benefits of our product/service in a fun and creative way.
- 5. Influencer Marketing Campaign for Traffic and Sales**
Prompt: Develop an influencer marketing campaign that will use the influence and reach of influencer type to drive traffic and sales to our product/service for my ideal customer persona.
- 6. Influencer Marketing Campaign for Education and Authority**
Prompt: Create an influencer marketing campaign that will leverage the authority and expertise of influencer type to educate my ideal customer

persona on the benefits of our product/service and persuade them to make a purchase.

7. Influencer Marketing Campaign for Valuable and Relevant Information

Prompt: Develop an influencer marketing campaign to target my ideal customer persona with a specific type of content from influencer type, who can share valuable and relevant information about our product/service and encourage them to take desired action.

8. Authentic Influencer Marketing Campaign for Desired Action

Prompt: Create an influencer marketing campaign that will leverage the authenticity and relatability of influencer type to engage my ideal customer persona and persuade them to take desired action on our product/service.

9. Influencer Marketing Campaign for Social Proof and Positive Experience

Prompt: Develop an influencer marketing campaign that will use the social proof and credibility of influencer type to persuade my ideal customer persona to try our product/service and share their positive experience with their followers.

10. Urgent Influencer Marketing Campaign for Exclusive Deals

Prompt: Create an influencer marketing campaign that will create a sense of urgency and FOMO for my ideal customer persona by featuring influencer type, who can share exclusive deals and promotions for our product/service.

11. Influencer Marketing Campaign for Awareness and Sales

Prompt: Develop an influencer marketing campaign that will leverage the reach and influence of influencer type to drive awareness and sales of our product/service to my ideal customer persona.

12. Influencer Marketing Campaign for Compelling and Authentic Content

Prompt: Create an influencer marketing campaign to engage my ideal customer persona with a specific type of content from influencer type, who can showcase the unique features and benefits of our product/service in a compelling and authentic way.

13. Influencer Marketing Campaign for Authority and Credibility

Prompt: Develop an influencer marketing campaign that will leverage the authority and credibility of influencer type to persuade my ideal customer persona to try our product/service and share their positive experience with their followers.

14. Influencer Marketing Campaign for Authentic Benefits

Prompt: Create an influencer marketing campaign to target my ideal customer persona with a specific type of content from influencer type, who can authentically share the benefits of our product/service and encourage them to make a purchase.

Chapter 14: Cold DM Ideas or email

1. **Attention-Grabbing Introductions:** Write an opening sentence for a cold DM about your product or service that immediately captures the reader's attention.
2. **Personalization Techniques:** Come up with three specific ways to personalize a cold DM to make it more effective.
3. **Call-to-Action Creation:** Write a clear and compelling call-to-action for a cold DM that encourages the recipient to take the next step.
4. **Objection Handling:** Draft a response to a common objection that you might encounter in a cold DM.
5. **Follow-up Strategies:** Create a follow-up plan for a cold DM that doesn't receive a response after the initial message is sent.
6. **Research Tactics:** List three specific sources of information that you can use to research a prospect before sending a cold DM.
7. **Value Proposition Development:** Write a one-sentence value proposition for your product or service that you can include in a cold DM.
8. **Multimedia Integration:** Brainstorm a creative way to incorporate multimedia, such as a video or infographic, into a cold DM.
9. **Subject Line Writing:** Write three different subject lines for a cold DM that you think would be effective.
10. **Timing Strategies:** Determine the best time of day and day of the week to send a cold DM, and explain your reasoning.

- 11.Length Considerations: Decide on the optimal length for a cold DM and explain why you think this length is effective.
- 12.Audience Targeting: Identify the target audience for a cold DM and list three specific characteristics that this audience shares.
- 13.Standout Techniques: Brainstorm three ways to make your cold DM stand out from the many others that your recipient receives.
- 14.Etiquette Guidelines: Create a list of dos and don'ts for cold DMs, including specific language to use and avoid.
- 15.Metrics Tracking: Identify three metrics that you can track to measure the success of a cold DM campaign.
- 16.Frequency Planning: Determine the optimal frequency for sending cold DMs to the same recipient, and explain your reasoning.
- 17.A/B Testing: Develop a plan to conduct A/B testing on different elements of a cold DM to optimize its effectiveness.
- 18.Credibility Building: Explain two ways that you can build credibility with a prospect in a cold DM.
- 19.Template Creation: Create a template for a cold DM that can be easily customized for different recipients.
- 20.Follow-up Schedule: Create a follow-up schedule for a cold DM campaign that includes specific dates and times for follow-up messages.
- 21.Cold DM Idea for Leveraging Authenticity and Relatability: I need a cold DM idea or content for leveraging the authenticity and relatability of my [brand/company] to engage my [ideal customer persona] and persuade them to take [desired action] on my [product/service].

22. Cold DM Idea for Engaging Ideal Customer Persona: I need a cold DM idea or content for engaging my [ideal customer persona] and persuading them to take [desired action] on my [product/service] by leveraging the authenticity and relatability of my [brand/company].
23. Cold DM Idea for Persuading Ideal Customer Persona: I need a cold DM idea or content for leveraging the authenticity and relatability of my [brand/company] to engage my [ideal customer persona] and persuade them to take [desired action] on my [product/service].
24. Cold DM Idea for Driving Traffic and Sales: I need a cold DM idea or content for using the influence and reach of my [brand/company] to drive traffic and sales to my [product/service] for my [ideal customer persona].
25. Cold DM Idea for Educating Ideal Customer Persona: I need a cold DM idea or content for leveraging the authority and expertise of my [brand/company] to educate my [ideal customer persona] on the benefits of my [product/service] and persuade them to make a purchase.
26. Cold DM Idea for Creating Anticipation and Excitement: I need a cold DM idea or content for providing a sneak peek of upcoming products or services and creating a sense of anticipation and excitement for my [ideal customer persona] with a clear and compelling call-to-action.
27. Cold DM Idea for Creating Sense of Community: I need a cold DM idea or content for creating a sense of community and belonging for my [ideal customer persona] by featuring user-generated content and encouraging them to share their own experiences with my [product/service].
28. Cold DM Idea for Showcasing Positive Experiences: I need a cold DM idea or content for showcasing the unique and personal experiences of my [ideal customer persona] with my [product/service] and persuading them to share their positive review with their followers.

29. Cold DM Idea for Providing Step-by-Step Guide: I need a cold DM idea or content for providing a step-by-step guide on how to use my [product/service] and persuading my [ideal customer persona] to make a purchase with clear and compelling instructions.

30. Cold DM Idea for Relatable and Authentic Message: I need a cold DM idea or content for drawing in my [ideal customer persona] with a relatable and authentic message, and then persuading them to take [desired action] with a strong call-to-action and compelling visuals.

Chapter 15. Teachers prompts

1. Lesson Plan: Develop a detailed lesson plan on a topic of your choice, including learning objectives, materials, and assessments.
2. Assignment: Create an assignment for students that assesses their understanding of a specific topic and provides clear instructions and grading criteria.
3. Multiple Choice Test: Create a multiple-choice test on a topic of your choice that assesses students' knowledge and understanding of key concepts.
4. Discussion Questions: Develop a list of thought-provoking discussion questions that encourage students to think critically and engage in meaningful conversations.
5. Rubric: Create a rubric for a specific assignment or project that clearly outlines expectations and grading criteria.
6. Quiz: Develop a short quiz on a specific topic that assesses students' understanding of key concepts.
7. Presentation: Create a presentation on a topic of your choice that includes engaging visuals and clear explanations of key concepts.
8. Group Project: Develop a group project that encourages collaboration and critical thinking among students.
9. Writing Prompt: Create a writing prompt that challenges students to think creatively and express their ideas in a clear and concise manner.
10. Graphic Organizer: Develop a graphic organizer that helps students organize their thoughts and ideas around a specific topic.

11. Debate Topic: Create a debate topic that encourages students to research and present arguments from different perspectives.
12. Interactive Activity: Develop an interactive activity that engages students and reinforces key concepts in a fun and engaging way.
13. Simulation: Create a simulation or role-playing activity that allows students to experience a real-world scenario and apply their knowledge and skills.
14. Exit Ticket: Develop an exit ticket that assesses students' understanding of key concepts at the end of a lesson or unit.
15. Case Study: Develop a case study that challenges students to apply their knowledge and problem-solving skills to a real-world scenario.
16. Vocabulary Quiz: Create a vocabulary quiz that assesses students' understanding of key terms and concepts related to a specific topic.
17. Interactive Worksheet: Develop an interactive worksheet that allows students to practice and reinforce key skills related to a specific topic.
18. Online Quiz: Create an online quiz using a platform like Kahoot or Quizlet that engages students and assesses their understanding of key concepts.
19. Essay Prompt: Develop an essay prompt that challenges students to think deeply about a specific topic and express their ideas in a well-written essay.
20. Peer Review: Create a peer review activity that allows students to provide feedback and constructive criticism on each other's work
21. First Impression: Write a two-sentence introduction for yourself as a teacher that immediately catches the attention of your students.

22. Lesson Planning: Create a one-paragraph lesson plan on a topic you find most interesting to teach, highlighting the key objectives and learning outcomes.
23. Classroom Management: Outline three effective strategies you use to manage your classroom and create a positive learning environment.
24. Grading Criteria: Describe your approach to grading student work, including the criteria you use and how you provide feedback.
25. Communication Skills: Write an email to a parent or guardian addressing a student's behavior or academic performance in a professional and empathetic manner.
26. Differentiation: Explain how you differentiate instruction to meet the diverse learning needs of your students.
27. Technology Integration: Describe how you incorporate technology into your teaching and provide an example of a lesson where technology enhances student learning.
28. Engagement: Share a creative activity or lesson plan you use to keep students engaged and interested in the material you are teaching.
29. Student-Centered Learning: Explain your approach to student-centered learning and how you involve students in the learning process.
30. Collaboration: Share an example of how you promote collaboration and teamwork among your students.
31. Assessment: Describe your approach to assessment and how you use assessment data to inform your teaching.
32. Feedback: Share a strategy you use to provide effective feedback to students that encourages growth and development.

33. **Motivation:** Explain how you motivate your students to take ownership of their learning and achieve their academic goals.
34. **Cultural Competence:** Discuss the importance of cultural competence in the classroom and share a strategy you use to ensure that all students feel valued and respected.
35. **Classroom Environment:** Describe how you create a safe, inclusive, and welcoming classroom environment for all students.
36. **Student Relationships:** Share a strategy you use to build positive relationships with your students and create a sense of community in the classroom.
37. **Different Learning Styles:** Explain how you adjust your teaching style to accommodate different learning styles in your classroom.
38. **Teacher Self-Care:** Share a self-care strategy you use to manage stress and maintain your well-being as a teacher.
39. **Parent-Teacher Conferences:** Describe your approach to parent-teacher conferences and how you build positive relationships with parents and guardians.
40. **Professional Development:** Explain how you stay current with best practices in teaching and share a professional development opportunity that has positively impacted your teaching practice.
41. **Critical Thinking Questions:** Create a set of critical thinking questions that require students to analyze, evaluate, and apply knowledge to real-world situations.
42. **Online Quiz:** Develop an online quiz that assesses students' understanding of a specific topic and provides immediate feedback.

43. Mind Map: Create a mind map that visually organizes key concepts and ideas related to a specific topic.
44. Video Lecture: Develop a video lecture that provides clear explanations of key concepts and engages students through visual aids and interactive elements.
45. Concept Map: Create a concept map that helps students visualize the relationships between different ideas and concepts related to a specific topic.
46. Crossword Puzzle: Develop a crossword puzzle that assesses students' understanding of key terms and concepts related to a specific topic.
47. Interactive Game: Create an interactive game that engages students and reinforces key concepts in a fun and engaging way.
48. Exam Question Bank: Develop a bank of exam questions that assess students' knowledge and understanding of key concepts related to a specific topic.
49. Virtual Field Trip: Create a virtual field trip that allows students to explore a real-world location or event related to a specific topic.
50. Comic Strip: Develop a comic strip that tells a story or explains a concept related to a specific topic.
51. Interactive Timeline: Create an interactive timeline that helps students visualize the sequence of events related to a specific topic.
52. Matching Exercise: Develop a matching exercise that requires students to match key terms and concepts with their definitions.
53. Scenario-Based Questions: Create a set of scenario-based questions that require students to apply their knowledge and problem-solving skills to real-world situations.

54. Case Study Questions: Develop a set of questions that challenge students to analyze and evaluate a case study related to a specific topic.
55. Survey Questionnaire: Create a survey questionnaire that assesses students' attitudes and opinions about a specific topic.
56. Interactive Whiteboard Activity: Develop an interactive whiteboard activity that engages students and reinforces key concepts in a dynamic way.
57. Podcast Episode: Create a podcast episode that discusses key concepts and ideas related to a specific topic in a conversational and engaging way.
58. Jigsaw Activity: Develop a jigsaw activity that encourages collaboration and information sharing among students.
59. Peer Teaching Assignment: Create a peer teaching assignment that requires students to research and present on a specific topic to their classmates.
60. Group Discussion Questions: Develop a set of group discussion questions that encourage students to think critically and engage in meaningful conversations with their peers.

Chapter 16. ChatGPT Prompts for Google sheets or Microsoft Excel

1. Sum Function: Provide an Excel sheet formula that can sum up a specific range of cells.
2. Count Function: Provide an Excel sheet formula that can count the number of cells that contain values within a specific range.
3. Average Function: Provide a Google Sheets formula that can calculate the average of a range of cells.
4. Max Function: Provide an Excel sheet formula that can find the maximum value within a range of cells.
5. Min Function: Provide an Excel sheet formula that can find the minimum value within a range of cells.
6. Median Function: Provide a Google Sheets formula that can calculate the median value of a range of cells.
7. Mode Function: Provide an Excel sheet formula that can find the most frequently occurring value in a range of cells.
8. VLOOKUP Function: Provide an Excel sheet formula that can search for a specific value in a table and return a corresponding value in the same row.
9. HLOOKUP Function: Provide an Excel sheet formula that can search for a specific value in a table and return a corresponding value in the same column.
10. IF Function: Provide an Excel sheet formula that can perform a logical test and return one value if the test is true and another value if the test is false.

11. Conditional Formatting: Create a Google Sheets template that uses conditional formatting to highlight cells that meet certain criteria, such as cells that contain specific text or are above a certain value.
12. Pivot Tables: Develop an Excel spreadsheet that uses pivot tables to analyze and summarize large sets of data, such as sales or financial data.
13. Data Validation: Create a Google Sheets template that uses data validation to ensure that cells contain valid entries, such as a specific date range or a list of acceptable values.
14. Goal Seek: Develop an Excel spreadsheet that uses the Goal Seek function to find the input value needed to achieve a specific output value, such as determining the interest rate needed to reach a savings goal.
15. Freeze Panes: Create a Google Sheets template that uses the Freeze Panes function to keep certain rows or columns visible while scrolling through large sets of data.
16. VLOOKUP: Develop an Excel spreadsheet that uses the VLOOKUP function to search for and retrieve specific data from a table or range.
17. Macros: Create a Google Sheets template that uses macros to automate repetitive tasks, such as formatting or data entry.
18. Charts and Graphs: Develop an Excel spreadsheet that uses charts and graphs to visually represent data, such as line charts or pie charts.
19. Protecting Sheets: Create a Google Sheets template that uses sheet protection to restrict certain users from editing or accessing specific cells or ranges.
20. HLOOKUP: Develop an Excel spreadsheet that uses the HLOOKUP function to search for and retrieve specific data from a table or range, but using horizontal lookup instead of vertical.

21. Transposing Data: Create a Google Sheets template that uses the Transpose function to switch the orientation of data from rows to columns, or vice versa.
22. Goal Line: Develop an Excel spreadsheet that uses the Goal Line function to add a target line to a chart or graph, indicating a desired level of performance.
23. Dropdown Menus: Create a Google Sheets template that uses dropdown menus to allow users to select from a list of pre-defined options, such as a list of products or categories.
24. Solver: Develop an Excel spreadsheet that uses the Solver add-in to find optimal solutions for complex problems, such as determining the optimal mix of products to maximize profits.
25. Merge Cells: Create a Google Sheets template that uses the Merge Cells function to combine multiple cells into one larger cell, useful for creating headings or titles.
26. TEXT Function: Develop an Excel spreadsheet that uses the TEXT function to format numbers or dates in a specific way, such as converting a date to a specific format.
27. Importing Data: Create a Google Sheets template that uses the Import function to import data from an external source, such as a website or CSV file.
28. IF Statements: Develop an Excel spreadsheet that uses IF statements to perform conditional calculations or display specific text based on certain criteria.
29. Named Ranges: Create a Google Sheets template that uses Named Ranges to assign specific names to ranges of cells, making it easier to reference them in formulas or calculations.

30. Goal Seek with Multiple Variables: Develop an Excel spreadsheet that uses the Goal Seek function with multiple variables, such as determining the optimal combination of inputs to achieve a specific output value.
31. Project Management Template: Create a project management template in Google Sheets that includes columns for task description, due date, status, and assigned team member.
32. Budget Tracker: Develop an Excel spreadsheet that helps individuals track their income and expenses, including categories such as rent/mortgage, utilities, groceries, and entertainment.
33. Social Media Content Calendar: Create a Google Sheets template for a social media content calendar that includes columns for post date, time, platform, content type, and caption.
34. Inventory Tracker: Develop an Excel spreadsheet that helps small businesses track their inventory levels and reorder dates.
35. Workout Tracker: Create a Google Sheets template that allows individuals to track their workout routines, including exercise type, sets/reps, and progress.
36. Travel Planner: Develop an Excel spreadsheet that helps individuals plan their travel itinerary, including flights, accommodations, and activities.
37. Meal Planner: Create a Google Sheets template that helps individuals plan their meals for the week, including recipes, ingredients, and shopping list.
38. Time Tracker: Develop an Excel spreadsheet that helps individuals track their time spent on different tasks, including work, school, and personal projects.
39. Employee Schedule Template: Create a Google Sheets template for an employee schedule that includes columns for shift start/end times, employee name, and position.

40. Invoice Template: Develop an Excel spreadsheet that helps small businesses create and track their invoices, including client name, due date, and amount owed.
41. Contact List: Create a Google Sheets template for a contact list that includes columns for name, email address, phone number, and company/organization.
42. Bookkeeping Spreadsheet: Develop an Excel spreadsheet that helps small businesses keep track of their finances, including income, expenses, and tax deductions.
43. Study Schedule: Create a Google Sheets template that helps students plan their study schedule, including subject, topic, and study time.
44. Customer Feedback Tracker: Develop an Excel spreadsheet that helps businesses track and analyze customer feedback, including ratings, comments, and trends.
45. Event Planning Checklist: Create a Google Sheets template for an event planning checklist that includes tasks, deadlines, and assigned team member.
46. Sales Tracker: Develop an Excel spreadsheet that helps businesses track their sales performance, including revenue, profit, and customer acquisition.
47. Recipe Organizer: Create a Google Sheets template that helps individuals organize their favorite recipes, including name, ingredients, and instructions.
48. Goal Tracker: Develop an Excel spreadsheet that helps individuals track their progress towards personal or professional goals, including milestones and timelines.
49. Daily Planner: Create a Google Sheets template that helps individuals plan their daily schedule, including tasks, appointments, and reminders.

50. Attendance Tracker: Develop an Excel spreadsheet that helps teachers or businesses track attendance for their classes or meetings, including date, name, and attendance status.
51. Nested IF Function: Provide an Excel sheet formula that can perform multiple logical tests and return different values depending on the results of those tests.
52. AND Function: Provide an Excel sheet formula that can test multiple conditions and return true if all conditions are met, and false otherwise.
53. OR Function: Provide an Excel sheet formula that can test multiple conditions and return true if any of the conditions are met, and false otherwise.
54. CONCATENATE Function: Provide an Excel sheet formula that can combine two or more strings of text into one cell.
55. LEFT Function: Provide an Excel sheet formula that can extract a specified number of characters from the beginning of a string of text in a cell.
56. RIGHT Function: Provide an Excel sheet formula that can extract a specified number of characters from the end of a string of text in a cell.
57. LEN Function: Provide an Excel sheet formula that can count the number of characters in a string of text in a cell.
58. TRIM Function: Provide an Excel sheet formula that can remove any leading or trailing spaces from a string of text in a cell.
59. TODAY Function: Provide a Google Sheets formula that can display the current date in a cell.
60. NOW Function: Provide an Excel sheet formula that can display the current date and time in a cell.

Chapter 17. Stock Market & Finance

1. **Technical Analysis:** Use technical analysis to identify key support and resistance levels for [stock] and provide a recommendation on whether to buy, hold, or sell.
2. **Fundamental Analysis:** Analyze [stock]'s financial statements to determine its valuation and prospects for growth.
3. **Sector Market Analysis:** Analyze current trends in [sector] to identify potential opportunities or risks in the stock market.
4. **Stock Portfolio Optimization:** Optimize a portfolio of [number] stocks to maximize return while minimizing risk.
5. **Valuation Comparison:** Compare the valuation of [stock] with its industry peers and provide a recommendation on whether to buy, hold, or sell.
6. **Option Trading:** Develop an options trading strategy for [stock] to profit from its price movements.
7. **Dividend Analysis:** Analyze [stock]'s dividend history and payout ratio to determine its potential for generating income.
8. **Growth Analysis:** Analyze [stock]'s growth prospects, such as earnings and revenue growth, to determine its potential for long-term capital appreciation.
9. **Risk Analysis:** Analyze the risks associated with investing in [stock] and develop a risk management strategy.
10. **Price Target:** Calculate a price target for [stock] based on its valuation and growth prospects.
11. **News Analysis:** Analyze recent news and events related to [stock] to identify potential opportunities or risks in the stock market.
12. **Earnings Analysis:** Analyze [stock]'s earnings history and estimates to determine its potential for future growth.

13. Market Share Analysis: Analyze [stock]'s market share and competition to determine its potential for growth.
14. Trend Analysis: Analyze [stock]'s price and volume trends to identify potential opportunities for investment.
15. Beta Analysis: Analyze [stock]'s beta, a measure of its volatility relative to the market, to determine its potential for risk and return.
16. Seasonality Analysis: Analyze [stock]'s price and volume trends over different seasons to identify potential opportunities for investment.
17. Correlation Analysis: Analyze the correlation between [stock] and other stocks or market indices to determine its potential for diversification.
18. Short Interest Analysis: Analyze [stock]'s short interest, a measure of investors' bearishness, to determine its potential for short-term price movements.
19. Insider Trading Analysis: Analyze recent insider trading activity related to [stock] to determine potential signals for investment.
20. Sentiment Analysis: Analyze public sentiment toward [stock] on social media or news articles to identify potential opportunities or risks in the stock market.
21. Algorithmic Trading: Develop a trading algorithm that utilizes machine learning to predict price movements for [stock].
22. Swing Trading: Develop a swing trading strategy for [stock] that takes advantage of short-term price movements.
23. Scalping Strategy: Develop a scalping strategy for [stock] that takes advantage of short-term price fluctuations.
24. Candlestick Analysis: Use candlestick chart patterns to identify potential reversals or continuations in the price of [stock].
25. Volume Analysis: Analyze [stock]'s trading volume to identify potential signals for investment.
26. Option Strategy: Develop an option strategy for [stock] that takes advantage of its implied volatility and potential price movements.
27. Technical Indicator Analysis: Use technical indicators, such as moving averages and relative strength index (RSI), to identify potential signals for investment in [stock].
28. Capital Allocation: Develop a capital allocation strategy that optimizes investment in [stock] and other assets to maximize risk-adjusted return.

29. Macro Analysis: Analyze macroeconomic indicators, such as inflation and interest rates, to identify potential opportunities or risks in the stock market for [stock].
30. Market Timing: Develop a market timing strategy that takes into account economic cycles and market trends to maximize investment return for [stock].
31. Seasonal Trading: Develop a seasonal trading strategy for [stock] that takes advantage of recurring patterns in the stock market.
32. Chart Pattern Analysis: Use chart patterns, such as head and shoulders and double bottoms, to identify potential signals for investment in [stock].
33. Risk-Return Analysis: Analyze the risk-return tradeoff for [stock] and other assets to determine optimal investment strategies.
34. Market Sentiment Analysis: Analyze market sentiment using social media, news articles, and other sources to identify potential opportunities or risks in the stock market for [stock].
35. Mean Reversion Trading: Develop a mean reversion trading strategy for [stock] that takes advantage of price movements toward the stock's historical mean.
36. Event-Driven Trading: Develop an event-driven trading strategy for [stock] that takes advantage of market reactions to news and events.
37. Pair Trading: Develop a pair trading strategy for [stock] that takes advantage of relative price movements between two stocks.
38. Arbitrage Trading: Develop an arbitrage trading strategy for [stock] that takes advantage of price discrepancies between different markets or assets.
39. Volatility Analysis: Analyze [stock]'s historical volatility and use it to determine optimal investment strategies.
40. Seasonal Stock Analysis: Analyze seasonal trends in the stock market and use them to identify potential opportunities or risks in [stock].
41. Financial Modeling: Build a financial model for a company in [industry] to determine its intrinsic value and potential investment opportunities.
42. Risk Management: Develop a risk management plan for a company in [industry] to mitigate potential financial risks.
43. Cash Flow Analysis: Analyze a company's cash flow statement to identify potential opportunities or risks for investment.

44. Financial Statement Analysis: Analyze a company's financial statements, such as income statement and balance sheet, to identify potential signals for investment.
45. Capital Budgeting: Use discounted cash flow (DCF) analysis to evaluate potential capital budgeting projects for a company in [industry].
46. Cost of Capital: Calculate a company's cost of capital using different methods, such as the capital asset pricing model (CAPM) or the dividend discount model (DDM).
47. Valuation Methods: Evaluate different valuation methods, such as price-to-earnings (P/E) ratio or discounted cash flow (DCF), to determine the intrinsic value of a company in [industry].
48. Financial Ratio Analysis: Analyze a company's financial ratios, such as debt-to-equity ratio or return on equity (ROE), to identify potential signals for investment.
49. Corporate Finance Strategy: Develop a corporate finance strategy for a company in [industry] that optimizes capital structure and maximizes shareholder value.
50. Investment Portfolio Optimization: Optimize a portfolio of investments by considering asset allocation, risk tolerance, and potential return for [investment period].
51. Financial Planning: Create a comprehensive financial plan for a client that addresses their long-term financial goals, such as retirement or education savings.
52. Tax Planning: Develop a tax planning strategy for a client that optimizes tax benefits and minimizes tax liability for the current year.
53. Debt Management: Create a debt management plan for a client that prioritizes high-interest debt and reduces overall debt burden.
54. Personal Budgeting: Create a budgeting plan for a client that addresses their short-term and long-term financial goals, such as debt repayment or savings for a major purchase.
55. Investment Analysis: Analyze a potential investment opportunity for a company in [industry] and determine its potential return on investment (ROI).
56. Financial Forecasting: Use historical financial data to create a financial forecast for a company in [industry] for the next [time period].

57. Financial Reporting: Prepare a financial report for a company in [industry] that includes financial statements, analysis, and potential areas for improvement.
58. Risk Analysis: Conduct a risk analysis for a company in [industry] and identify potential risks to its financial stability and growth.
59. Equity Research: Conduct equity research on a company in [industry] and create an investment recommendation based on your analysis.
60. Financial Market Analysis: Analyze the performance of a financial market, such as the stock market or bond market, and identify potential investment opportunities or risks.
61. IPO Valuation: Evaluate the valuation of a company going public through an initial public offering (IPO) and determine whether it is overvalued or undervalued.
62. Options Trading: Develop a trading strategy for options based on market trends and risk tolerance for a given stock or market index.
63. Credit Analysis: Conduct a credit analysis on a potential borrower, such as a corporation or individual, to determine their creditworthiness and risk level.
64. Foreign Exchange Trading: Develop a trading strategy for foreign exchange (Forex) based on market trends and risk tolerance.
65. Dividend Investing: Develop an investment strategy that focuses on high dividend-paying stocks for long-term growth and income.
66. Cryptocurrency Analysis: Analyze the performance of a cryptocurrency, such as Bitcoin or Ethereum, and identify potential investment opportunities or risks.
67. Real Estate Investment: Develop a real estate investment strategy that considers market trends, property valuation, and potential rental income.
68. Mutual Fund Analysis: Analyze the performance of a mutual fund and determine whether it is a good investment option for a client.
69. Venture Capital: Evaluate a startup company's potential for growth and profitability and determine whether it is a good investment opportunity for venture capital funding.
70. Commodity Trading: Develop a trading strategy for commodities, such as gold or oil, based on market trends and risk tolerance.

71. Merger and Acquisition Analysis: Analyze the financial impact of a merger or acquisition for a company and determine whether it is a good investment opportunity.
72. Fixed Income Investment: Develop an investment strategy that focuses on fixed-income securities, such as bonds or treasury notes, for long-term growth and income.
73. Hedge Fund Analysis: Analyze the performance of a hedge fund and determine whether it is a good investment option for a client.
74. Retirement Planning: Create a retirement plan for a client that addresses their financial goals, risk tolerance, and retirement lifestyle.
75. Private Equity Investment: Evaluate a private equity investment opportunity and determine whether it is a good investment option for a client.
76. Trading Psychology: Develop a trading strategy that considers behavioral finance concepts, such as market sentiment and investor psychology.
77. High-Frequency Trading: Develop a high-frequency trading strategy that uses algorithmic trading to make quick and efficient trades based on market trends.
78. Investment Risk Assessment: Conduct a risk assessment for a client's investment portfolio and determine potential areas for diversification or risk reduction.
79. Environmental, Social, and Governance (ESG) Investing: Develop an investment strategy that focuses on companies that prioritize environmental, social, and governance factors in their operations.
80. Financial Education: Create an educational program or materials that teach individuals about personal finance, investing, and financial planning.

Chapter 18. Startups & Brands

1. [Product/Service] Idea Generation: Brainstorm a list of 50 ideas for a new [product/service] that can generate revenue for a startup or brand.
2. [Market] Research: Conduct research on a specific market and identify unmet needs or underserved niches that can be tapped into for business opportunities.
3. Competitive Analysis: Evaluate the strengths and weaknesses of top competitors in a particular industry and brainstorm ways to differentiate and compete effectively.
4. SWOT Analysis: Conduct a SWOT (Strengths, Weaknesses, Opportunities, Threats) analysis for a startup or brand and use the insights to generate new ideas.
5. Business Model Canvas: Use the Business Model Canvas to analyze a startup or brand's existing business model and identify areas for improvement or new revenue streams.
6. Lean Startup Methodology: Apply the Lean Startup methodology to idea generation by quickly testing and validating ideas through minimal viable products and customer feedback.
7. Design Thinking: Use design thinking to generate new ideas by empathizing with customers, defining problems, ideating solutions, prototyping, and testing.
8. Mind Mapping: Create a mind map of a startup or brand's existing products or services and use it as a springboard for generating new ideas.

9. Customer Persona Development: Create customer personas to understand the needs and pain points of target customers and generate ideas to meet those needs.
10. Value Proposition Design: Use the Value Proposition Canvas to design compelling value propositions for new products or services and generate ideas around them.
11. Idea Prioritization: Prioritize a list of generated ideas using criteria such as revenue potential, feasibility, and alignment with the startup or brand's vision and mission.
12. Business Case Development: Develop a business case for a specific idea, including market analysis, financial projections, and potential risks and rewards.
13. Idea Validation: Test and validate a new idea through market research, surveys, focus groups, or other methods to determine its viability and potential for success.
14. Idea Refinement: Refine a generated idea based on customer feedback, market research, and data analysis to make it more feasible, attractive, and profitable.
15. Minimum Viable Product (MVP) Development: Develop a minimal viable product to test and validate a new idea quickly and cost-effectively.
16. Intellectual Property Protection: Evaluate the potential intellectual property value of a new idea and determine the best ways to protect it through patents, trademarks, or other legal means.
17. Go-to-Market Strategy: Develop a comprehensive go-to-market strategy for a new idea, including product positioning, pricing, distribution channels, and marketing tactics.

18. Strategic Partnership Development: Identify potential strategic partners for a new idea, such as suppliers, distributors, or complementary businesses, and explore collaboration opportunities.
19. Revenue Model Design: Design a revenue model for a new idea, including pricing, revenue streams, and cost structure, to ensure profitability and sustainability.
20. Risk Analysis: Conduct a risk analysis for a new idea, identifying potential risks and developing contingency plans to mitigate them.
21. [Brand] monetization strategy: provide a step-by-step guide to help [brand] generate revenue.
22. Conduct market research for [industry]: create a detailed report on potential customer segments and their buying behavior.
23. [Startup] pricing model: suggest a pricing strategy for [startup] based on industry standards and target audience.
24. [Startup] business plan: provide a comprehensive business plan for [startup], including a financial model and marketing strategy.
25. [Industry] trend analysis: analyze the current trends in [industry] and provide insights on how [brand/startup] can capitalize on them.
26. [Startup] customer acquisition plan: develop a plan to acquire new customers for [startup] using a mix of online and offline marketing channels.
27. [Brand] affiliate marketing program: create an affiliate marketing program for [brand] to generate additional revenue streams.
28. [Startup] investor pitch deck: create a compelling investor pitch deck for [startup] that showcases its unique value proposition and potential for growth.
29. [Startup] product roadmap: develop a product roadmap for [startup] that outlines key features and milestones.
30. [Startup] go-to-market strategy: develop a go-to-market strategy for [startup] that focuses on reaching its target audience and achieving early adopters.

31. [Industry] competitive analysis: analyze the key players in [industry] and provide insights on how [brand/startup] can differentiate itself.
32. [Startup] revenue streams: suggest new revenue streams for [startup] based on its existing products/services and target audience.
33. [Brand] content marketing strategy: develop a content marketing strategy for [brand] that drives engagement and generates leads.
34. [Startup] SEO strategy: develop an SEO strategy for [startup] that improves its visibility and search rankings.
35. [Industry] partnership opportunities: identify potential partnership opportunities for [brand/startup] that can lead to new revenue streams.
36. [Startup] funding sources: suggest potential funding sources for [startup], including angel investors, venture capitalists, and crowdfunding platforms.
37. [Brand] social media strategy: develop a social media strategy for [brand] that improves its reach and engagement with its target audience.
38. [Startup] target audience analysis: conduct a target audience analysis for [startup] to identify its ideal customer profile and key pain points.
39. [Industry] white paper: create a white paper on the current state of [industry], including trends and challenges, and provide recommendations for [brand/startup] to succeed.
40. [Startup] user testing plan: develop a user testing plan for [startup] to gather feedback and improve its product/service offering.
41. Revenue Model Design: Design a revenue model for a new startup or brand that generates sustainable income over time.
42. Monetization Strategy: Develop a monetization strategy for a digital platform or product that maximizes revenue while balancing user experience and engagement.
43. Sales Funnel Optimization: Optimize a sales funnel for a startup or brand to increase conversions and revenue.
44. Subscription-Based Business Model: Create a subscription-based business model for a startup or brand that encourages recurring revenue and customer loyalty.
45. Sponsored Content Strategy: Develop a sponsored content strategy for a brand that generates revenue through partnerships with other companies or influencers.

46. Product Bundling Strategy: Create a product bundling strategy for a startup or brand that encourages customers to purchase complementary products or services.
47. Affiliate Marketing Plan: Develop an affiliate marketing plan for a startup or brand that generates revenue through referrals from partner companies or individuals.
48. Brand Licensing Strategy: Develop a brand licensing strategy for a startup or brand that generates revenue through licensing agreements with other companies.
49. Freemium Business Model: Design a freemium business model for a startup or brand that offers a basic version of a product or service for free and charges for premium features.
50. Influencer Marketing Campaign: Develop an influencer marketing campaign for a startup or brand that generates revenue through sponsored content or partnerships with social media influencers.
51. Joint Venture Partnership: Identify potential joint venture partnerships for a startup or brand that could generate revenue through collaborative projects or product offerings.
52. Product Placement Strategy: Create a product placement strategy for a startup or brand that generates revenue through strategic product placement in movies, TV shows, or other media.
53. Crowdfunding Campaign: Develop a crowdfunding campaign for a startup or brand that generates revenue through pre-orders or donations from supporters.
54. Brand Sponsorship Strategy: Develop a brand sponsorship strategy for a startup or brand that generates revenue through sponsorships of events, sports teams, or other organizations.
55. Branded Merchandise Strategy: Develop a branded merchandise strategy for a startup or brand that generates revenue through the sale of branded products or apparel.
56. Affiliate Network Strategy: Develop an affiliate network strategy for a startup or brand that generates revenue through a network of affiliate marketers promoting the brand's products or services.

57. Referral Marketing Plan: Create a referral marketing plan for a startup or brand that incentivizes customers to refer their friends and family to the brand.
58. Product Development Strategy: Develop a product development strategy for a startup or brand that focuses on creating products or services that fill a market gap and generate revenue.
59. Viral Marketing Campaign: Develop a viral marketing campaign for a startup or brand that generates revenue through viral content or user-generated content.
60. Email Marketing Strategy: Develop an email marketing strategy for a startup or brand that generates revenue through targeted email campaigns and sales funnel optimization.
61. Growth Metrics: Identify the key metric(s) that matter most for your startup's growth and set measurable goals around them.
62. Acquisition Channels: Analyze which acquisition channels are driving the most traffic and optimize your marketing spend accordingly.
63. Conversion Funnel: Improve your conversion rates by identifying and addressing bottlenecks in your conversion funnel.
64. User Retention: Measure and optimize user retention rates to ensure long-term success.
65. Churn Analysis: Analyze the reasons for churn and create strategies to reduce it.
66. Customer Lifetime Value: Calculate the lifetime value of your customers to optimize your acquisition and retention efforts.
67. A/B Testing: Conduct A/B testing to identify the most effective variations of your product or marketing materials.
68. Cohort Analysis: Perform cohort analysis to identify trends and patterns in user behavior over time.
69. Funnel Optimization: Optimize your sales funnel by tracking and improving key conversion points.
70. grow it over time.
71. Net Promoter Score (NPS): Survey your customers to calculate your [company]'s NPS and use it to gauge customer satisfaction and loyalty.
72. User Engagement: Measure and optimize user engagement metrics such as time on site, session length, and pages per session.

73. Funnel Conversion Rate: Analyze and improve the conversion rates at each stage of your sales funnel.
74. Website Analytics: Use Google Analytics or other tools to measure and analyze traffic, user behavior, and conversion rates on your website.
75. Social Media Metrics: Measure and optimize social media metrics such as follower count, engagement rate, and click-through rate.
76. Customer Lifetime Value (CLV): Calculate your [company]'s CLV and use it to make informed decisions around acquisition, retention, and upselling.
77. Referral Program: Implement and measure the effectiveness of a referral program to drive new customer acquisition.
78. Email Marketing: Use email marketing tools to measure and optimize metrics such as open rates, click-through rates, and conversion rates.
79. Churn Rate: Calculate your [company]'s churn rate and implement strategies to reduce it, such as improving customer support or adding new features.
80. Cost per Acquisition (CPA): Calculate your [company]'s CPA for each marketing channel and optimize your spending to reduce costs and improve ROI.

Chapter 19. Gaming design & Programming

1. Game Storyline: Write a captivating storyline for a new game that involves {character} and {objective}.
2. Game Concept Art: Create a concept art for a new game that is set in {location} and features {element}.
3. Game Design Document: Write a detailed game design document for a new game that includes {mechanic} and {theme}.
4. Game Level Design: Design a new level for a game that involves {obstacle} and {goal}.
5. Game Asset Creation: Create a new asset for a game that features {element} in a unique way.
6. Game Sound Design: Design sound effects for a game that will create a sense of {emotion} and enhance gameplay.
7. Game UI Design: Design the user interface for a game that is easy to use and visually appealing.
8. Game Prototype: Create a prototype for a new game that demonstrates {mechanic} and {objective}.
9. Game Testing Plan: Develop a testing plan for a new game that ensures all features are thoroughly tested.
10. Game Monetization: Develop a monetization strategy for a game that maximizes revenue without sacrificing user experience.
11. Game Localization: Localize a game for a new market by adapting {element} to suit the cultural preferences of that region.

12. Game Marketing Strategy: Develop a marketing strategy for a new game that effectively promotes the game and reaches the target audience.
13. Game User Acquisition: Develop a plan to acquire new users for a game that utilizes {platform} and {tactic}.
14. Game Community Management: Develop a community management plan for a game that fosters engagement and creates a sense of community.
15. Game Analytics: Develop an analytics plan for a game that tracks {metric} and provides insights into user behavior.
16. Game Engine Selection: Select the appropriate game engine for a new game that balances {performance} and {ease of use}.
17. Game Programming: Develop a program for a new game that includes {mechanic} and {objective}.
18. Game AI: Implement an AI system for a game that enhances {gameplay} and provides a challenging experience for players.
19. Game Multiplayer: Develop a multiplayer feature for a game that allows {number} of players to compete against each other.
20. Game VR/AR Integration: Integrate VR/AR technology into a game that enhances {immersion} and creates a unique experience for players.
21. Game Concept: Come up with a unique game concept for {platform} that has never been done before.
22. Game Design: Design a level for a platformer game that challenges the player's problem-solving skills.

23. Storyline: Write a compelling backstory for the main character in a role-playing game.
24. Character Creation: Create a character design for a new playable character in a fighting game.
25. Quest Design: Design a quest for an open-world game that requires the player to use stealth and strategy.
26. User Interface: Design a user interface for a mobile puzzle game that is intuitive and easy to use.
27. Sound Design: Create a soundtrack for a horror game that creates a sense of tension and fear.
28. Art Style: Develop a unique art style for a 2D platformer game that is visually appealing.
29. Game Mechanics: Design a unique game mechanic for a puzzle game that challenges the player's spatial awareness.
30. Game Balancing: Balance the difficulty of a boss battle in an action game to ensure it is challenging but not frustrating.
31. Cutscene Creation: Create a cutscene for a story-driven game that conveys a key plot point to the player.
32. Character Dialogue: Write dialogue for a character in an RPG that showcases their personality and backstory.
33. Game Programming: Develop a prototype of a simple game using {programming language}.
34. Game Testing: Create a testing plan for a multiplayer game that ensures a smooth player experience.

35. Game Marketing: Create a marketing plan for a new game release that targets {target audience}.

Chapter 20. Midjourney + Others

1. Pretend you are a graphic designer generating creative images for midjourney. Midjourney is an app that can generate AI art from simple prompts. I will give you a concept and you will give me 5 different prompts that I can feed into midjourney. Make sure they are creative .
2. Podcast generation: You are an expert in branding and marketing specializing in building brand awareness. You have helped many companies before me to create a unique and recognizable brand. Your task is now to teach me how to showcase the personality of my company/brand through an interview format, in order to persuade my [ideal customer persona] to take action. To better understand what I want and need you should always answer by including a question that helps you better understand the context and my needs. Did you understand?[PROMPT].[language].
